

At Swinburne edge we've transformed the online learning experience. Our live online delivery is a dynamic engaging and interactive way to learn remotely skip the commute.

Enjoy the comfort of your own working environment in a class of no more than 20. Virtual workshops that go beyond basic video. Calls are a key part of live online delivery, your facilitator will present in real time and you will be able to participate in group discussions. It's just like face to face but with the added benefits of digital technology.

Our interactive platforms will allow you to collaborate on exercises and group activities and it doesn't end when the workshop is finished. You'll have continued access to the discussion board shared files and group threads that you can refer back to at any time.

To take part all you need is a computer a microphone speakers or headphones an internet connection and a quiet place to work to get the most out of your live online experience.

Get set up in your workspace log in early and familiarize yourself with the day's events. Each workshop consists of a range of class group and individual activities all learning resources are available through our learning management

system including workshop materials and if you're enrolled in a qualification you'll have access to the whole of Swinburne's digital library.

If you have any problems connecting our customer experience team will be standing by ready to help. Swinburne edge live online delivery is designed to meet your needs get industry ready take control of your learning with Swinburne edge live online courses.
