# Why choose Swinburne?

With a degree from Swinburne, you can go anywhere in the world.

London. Singapore. New York. Hong Kong. Our graduates are spread around the globe and work for some of the most dynamic organisations, from startups to not-for-profits to multinationals.

A degree from Swinburne means you'll have the prestige of a globally renowned university paired with the confidence that comes from genuine workplace experience.

When you graduate, you'll become one of thousands of Swinburne graduates around the world who are writing their own success stories. And that's all because a degree from Swinburne sets you up for life.

# We prepare you for work

From experiences you'll be proud to put on your résumé, to advice and workshops on applying for jobs, Swinburne offers it all.

## Real industry experience

All master degree students are guaranteed the opportunity to gain real industry experience. And since we've been providing this to our students since 1963, we know the best way to build it into our courses. This is how we make sure that you'll become the next generation talent our workforce needs.

Swinburne collaborates with established organisations and companies like National Australia Bank (NAB), PricewaterhouseCoopers (PwC), Royal Melbourne Hospital, IBM and more – because we aim to connect you to your career faster.

## Internships

Internships are part-time opportunities with established organisations that give you all-important Australian work experience. They usually take place over the course of a semester. While they're typically unpaid, they're perfect for international students. Here's why – internships are covered by your visa conditions. And, if you take an internship as an elective unit, your course length remains the same. It's also a great addition to your résumé and will help you stand out in your future job search. We offer internships as part of a range of IT, engineering and business master degrees.

## Industry-linked projects

Many of our master degrees are embedded with industry-linked projects. You'll collaborate with fellow students in finding solutions to real industry issues, present your ideas and receive feedback, just like in the workplace. In many cases, you'll interact with working professionals and experts in your field. Study areas that offer this option include business, engineering, IT and media and communication.

## Careers and employment services

Our Careers and Employability team has experienced career counsellors who provide a range of free services for current students and recent graduates including:

- résumé-checking
- interview practice sessions
- on-campus employment fairs
- job workshops.

Sachith

Master of Engineering [Civil] graduate

"At Swinburne, you get so much exposure to the practical side of things. Many Swinburne professors are in industry. In fact, one of my professors introduced me to a field engineer at the Snowy Hydro power scheme. That's how I got a job on the project!"

*Sachith is currently a Senior Project Engineer at ACCIONA Construcción, working on the Shepparton Rail Line Upgrade.*

Find out more about Sachith's study and industry experience →

## Did you know?

To successfully obtain an internship, you will have to go through a selection process, just like searching for a job in real life. Don't worry, our dedicated Careers and Employability team will help plan your career and guide you in creating a résumé and cover letter. We will also help you prepare for your interview!

## We've invested in technology

Swinburne is committed to providing you with world-class facilities using cutting-edge technology. Our researchers and students search for next generation answers using the best equipment and programs available.

### 1 Innovating the way we innovate Factory of the Future

Here, Swinburne helps businesses and innovators (some of whom are its students!) who want to use Industry 4.0 thinking and processes to succeed. In collaboration with clients, the lab can develop new products and methods of manufacturing, as well as more productive business models. Collaborative robots, advanced simulation tools, 3D printers and high-precision scanners assist in everything from optimising manufacturing to developing new factory layouts to translating concepts into prototypes quickly.

Scan for more info

### 2 Simulating earthquakes for the greater good Smart Structures Laboratory

Earthquakes are just one element that the lab tests for, in search of safer and more efficient infrastructure systems and buildings. It is the only lab of its kind in Australia, filled with A\$15 million worth of equipment – it helps researchers and clients develop innovative materials with lower environmental impacts and cost as well as improved energy efficiency.

Scan for more info

### 3 Where the next gen of engineers and network specialists train Cisco Networking Laboratory

Are you planning to study electrical and telecommunications engineering or networking? Then you'll be receiving industry-accredited Cisco training right here! Every workstation can set up, control and enable a wide range of real-world networking environments, from small to extra large and complex networks. It's got more than 200 routers, 200 switches and 50 firewalls and is better equipped than some internet service providers.

Scan for more info

### 4 A 3D printer the size of a house Digital Construction Laboratory

That's just one of several large-scale printers you'll find in Swinburne's A\$2 million Digital Construction Lab. It's a unique facility – no other like it exists in Australia! Many of the 3D printers here print in concrete. Researchers and industry practitioners come here to test out cutting-edge methods of construction, like automation and extrusion.

Scan for more info

### 5 Australia's fastest brain imaging system Swinburne Neuroimaging Laboratory

Our Neuroimaging Lab is the only human imaging facility in Australia and New Zealand to offer magnetoencephalography (MEG), magnetic resonance imaging (MRI) and electroencephalography (EEG). It's a key member of the \$300 million National Imaging Facility project, where the most important brain-related questions can be explored. Researchers from across the country come here to understand human brain function and how it affects behaviour, cognitive development and mental health.

<sup>2</sup>City of Melbourne [melbourne.vic.gov.au](http://melbourne.vic.gov.au)

# Scholarships

With an international scholarship, you could get up to 30% off your tuition fees.

When you apply for a Swinburne course, we'll automatically consider you for an international scholarship. If you are successful, we'll advise you of both your course application and scholarship success by email.

You're also welcome to apply for our general scholarships. You'll find them here: [swinburne.edu.au/scholarships](https://swinburne.edu.au/scholarships)

## George Swinburne International Excellence Scholarship

30% off your tuition fees for the standard course duration.

This is a merit-based scholarship that is awarded to students demonstrating academic excellence in their previous studies. If eligible, you can receive this scholarship for the standard duration of your qualification with Swinburne.

## Ethel Swinburne Women in STEM International Scholarship

30% off your tuition fees for the standard course duration.

This merit-based scholarship is awarded to female international students applying for a course in an engineering, science or technology-related course offered by the School of Engineering or the School of Science, Computing and Engineering Technologies. Applicants must demonstrate academic excellence in their previous studies. If eligible, you can receive this scholarship for the standard duration of your qualification with Swinburne.

## Swinburne International Scholarship

Up to 20% off your tuition fees for the standard course duration.

This scholarship is offered to international students commencing their studies at Swinburne. If eligible, you will receive the scholarship for the standard duration of your qualification with Swinburne.

## Swinburne College International Scholarship

Up to 15% off your tuition fees for the standard course duration.

This scholarship is offered to international students commencing their studies in a Foundation Program, UniLink Bridging Program, UniLink diploma or Postgraduate Qualifying Program.

## ELICOS+

Up to 10 weeks ELICOS tuition included in packaged programs, valued up to A\$4400.

ELICOS+ helps get your English up to university standard so you're ready to start your Swinburne course with confidence. It refunds up to 10 weeks of your ELICOS tuition fees across the first three semesters of your undergraduate or postgraduate Swinburne course.

## Eligibility

You can confirm the eligibility criteria for each scholarship on our scholarship website

Monica

Scholarship recipient  
Master of Engineering Science graduate

"I chose Swinburne because of its connections with industry. Winning a scholarship has made study in Australia possible. In my previous job, I was a petroleum engineer, but I was fascinated by renewable energy and hoped to contribute to advances in the field when I graduated."

Monica is currently Senior Asset Engineer at Total Eren, a global renewable energy company in Melbourne, Australia.

# Our successful graduates

Once Swinburne students, these graduates now work in Melbourne and around the world — as directors, managers, engineers and more.

Leading social enterprise and creating jobs

**Huong Dang Thi**

**Director of Marketing and Partnerships Engagement, KOTO and Founder, Hopebox**  
**Master of Entrepreneurship and Innovation**

For Huong Dang Thi, success means helping others. She is a leader in Vietnam's social enterprise movement and the founder of HopeBox, a not-for-profit creating jobs for women who have fled domestic violence.

As a young woman, Huong lived on the streets of Hanoi and dreamed of an education. She received a scholarship to study in Australia through Know One Teach One (KOTO), an organisation providing training to disadvantaged youth. After completing her master degree at Swinburne, Huong returned to work at KOTO, the organisation that changed her life. Huong thrived at Swinburne and calls Australia her "second home".

Australia Awards scholar advancing Bhutan's hydropower industry

**Kuenzang Dorji**

**Deputy Executive Engineer (Civil), Druk Green Power Corporation**  
**Master of Construction and Infrastructure Management**

A recipient of the prestigious Australia Awards Scholarship, Kuenzang found himself immersed in all aspects of Australian construction practice during his degree. Named 'Highest Achieving Graduate' in his class, he now works on the important Chhuka Hydropower Plant at home in Bhutan.

He found the group project topics, software and coursework highly reflective of current Australian practice and translatable to the Bhutanese construction sector. Some of his most memorable classes were ones where field professionals gave guest talks on industry issues. In his cohort were fellow seasoned engineers from different backgrounds, which expanded his perspectives on the sector and helped him build an invaluable network for the future.

A small business champion

**Abdul Hafiz**

**Managing Director, Purplesoft Technology Pty Ltd**  
**Master of Information Technology (Network Systems)**

Abdul Hafiz always wanted to run his own business. In 2016 his dream became a reality when he launched Purplesoft Technology, a leading Australian software development and digital marketing company.

Purplesoft was named one of Anthill Magazine's Top 100 Coolest Companies in Australia in 2018 and was also a finalist in the 2019 Australian Small Business Champion Awards. Abdul says that working part-time during his degree helped him build his network and taught him valuable lessons about having a successful career in Australia.

The voice of Dubai's morning radio

**Evita Louis**

**Radio Presenter, TFM Oman**  
**Master of Arts (Media and Communications)**

If you live in Oman, chances are you wake up to Evita's voice. She is a breakfast presenter on TFM Mornings, one of Oman's most popular radio stations, where she interviews people, chats about current affairs and puts a smile on everyone's face.

Her journey to her current role included working at Heart 107.1FM in Dubai, volunteering at 3MBS in Melbourne and working for three years in internet and in-store radio. Evita is proud to have found success in multiple international markets and credits her Swinburne course. Evita says it was the practical content and expert lecturers that set her up for success. She describes her degree as "one of the best master courses in media".

Designing for top developers and Mercedes-Benz

**Tennyson Chia**

**Managing Director, Sachi Interior Design Sdn Bhd**  
**Master of Design (Interior Design)**

Tennyson's proudest achievement is founding an award-winning interior design firm only a few years after graduating. His firm, Sachi Interior Design, won a Best Interior Design (Showhouse) award at Malaysia's Designer of the Year Awards 2018.

Designing showrooms for Mercedes-Benz is another highlight. His firm designed the first Mercedes-Benz speakeasy café in Malaysia – a hidden space where owners can wait for their car service to be completed. Tennyson describes the project as "a rare and unique experience". He says his lecturers taught him to express himself with confidence and to approach projects from both a creative and business point-of-view.

# Built Environment and Architecture

## Design and build a future everyone can thrive in.

Our courses will train you to seek solutions suitable for global and local issues in the areas of design, professional architectural practice, urban policy, landscape architecture and sustainability.

### Real industry experience

Studying a master degree? That means you're guaranteed the chance of applying for an internship. Add Australian work experience to your résumé to stand out when searching for jobs. If you choose an internship as an elective unit, you'll still graduate on time, as planned.

## Australia's first

Our Master of Architecture and Urban Design is the first and only double degree of its kind in Australia

Scan for more info about our built environment and architecture degrees

### Master of Architecture

🕒 2yrs 📍 Melbourne 📅 February, July 💰 A\$41,840/year © 098495F

Core professional practice studies prepare students for the current status and future trajectories of the regulatory, ethical, entrepreneurial, and management landscape of professional architectural practice. The research-driven, studio-centric curriculum provides students with global understanding of built, virtual and Industry 4.0 environments through local engagement.

**Topics covered:** Design studio, construction and professional practice, contextual studies, communication.

**Professional recognition:** This course is accredited with the Architects Accreditation Council of Australia (AACA).

### Entry requirements

Successful completion of Swinburne's Bachelor of Design (Architecture); or Bachelor of Engineering (Honours) with a major in Architectural; or Bachelor of Design (Honours) (Interior Architecture) with an advanced minor in Architecture; or another approved three-year undergraduate architectural degree including the submission of an online portfolio.

### Master of Architecture and Urban Design

🕒 2yrs 📍 Melbourne 📅 February, July 💰 A\$41,840/year © 098496E

The first of its kind in Australia, this course embraces aspects of strategic planning, urban policy, landscape architecture and architecture as well as health, mobility, data science and technology.

The course focuses on use of big-data and analytics combined with emerging digital technology, aimed towards addressing issues of sustainability, liveability and health and wellbeing.

**Topics covered:** Design strategy, design management, sustainability in design, design studio, construction and professional practice, contextual studies, communication.

**Professional recognition:** This course is accredited with the Architects Accreditation Council of Australia (AACA).

### Entry requirements

Successful completion of Swinburne's Bachelor of Design (Architecture); or Bachelor of Engineering (Honours) with a major in Architectural; or Bachelor of Design (Honours) (Interior Architecture) with an advanced minor in Architecture; or another approved three-year undergraduate architectural degree including the submission of an online portfolio.

### Master of Urban Design

🕒 2yrs 📍 Melbourne 📅 February, July 💰 A\$41,840/year © 098497D

The discipline of urban design embraces aspects of strategic planning, urban policy, landscape architecture and architecture as well as health, mobility, data science and technology.

This course has a focus on use of big-data and analytics combined with emerging digital technology, aimed towards addressing issues of sustainability, liveability and health, and wellbeing.

**Topics covered:** Design strategy, design management, sustainability in design.

### Entry requirements

Successful completion of Swinburne's Bachelor of Design (Architecture); or Bachelor of Engineering (Honours) with a major in Architectural; or Bachelor of Design (Honours) (Interior Architecture) with an advanced minor in Architecture; or another approved three-year undergraduate architectural degree including the submission of an online portfolio.

Sachi

Master of Business Information Systems

"My course is the perfect balance of IT and business. A lot of it is geared towards strategically using information systems to solve issues in an organisation. Apart from the high standard of education, Swinburne's known for its industry placements which help students get a foothold in their sector.

I've attended guest lectures by industry experts and our assignments are all about applying our knowledge to real-world situations. My favourite assignment was where my team was tasked with assessing an organisation's current information system, identifying its issues and planning a replacement. Due to the pandemic, we only collaborated virtually yet developed lots of viable solutions. The bigger lesson was how much it improved my interpersonal skills – how to consider other opinions and offer constructive criticism, which will be truly invaluable in the workplace. On top of that, my team members already had jobs in IT, so I was also learning from my peers."

Find out more about Sachi's study and industry experience →

### Master of Professional Accounting (Extended)

🕒 2yrs 📍 Melbourne 📅 February, July 💰 A\$44,340/year © 099474C

Designed for emerging accountants, this degree allows for further specialisation in accounting for professional recognition. Gain the technical, practical, analytical and creative skills required to deal with accounting and finance issues in planning and decision-making.

**Topics covered:** Financial management and reporting, accounting and taxation principles, corporate finance and economics.

**Specialisations:** Business Analytics, Finance.

**Professional recognition:** This course is professionally accredited through CPA Australia and Chartered Accountants Australia and New Zealand (CAANZ). Graduates are therefore eligible to apply for membership of the CPA, CAANZ, Chartered Institute of Management Accountants (CIMA), Association of Chartered Certified Accountants (ACCA) and the Institute of Public Accountants (IPA).

A 1.5-year Master of Professional Accounting is also available.

#### Entry requirements

A recognised bachelor degree in any discipline, or a Graduate Certificate of Professional Accounting, or completion of the Postgraduate Qualifying Program.

### Master of Business Administration

🕒 2yrs 📍 Melbourne 📅 February, July 💰 A\$44,340/year © 102648M

Designed to develop students' capability to engage and deal with uncertainty, change and turbulence in the environments in which your organisation operates. Learn skills in strategy, leadership, innovation, and ethical and social responsibility.

**Topics covered:** Accounting, finance and banking, human resource management, digital marketing, business information systems, supply chain innovation, project management.

**Specialisations:** Accounting, Business Analytics, Business Information Systems, Digital Marketing, Entrepreneurship and Innovation, Finance, Financial Technologies, Human Resource Management, International Business, Project Management, Research, Supply Chain Innovation.

#### Entry requirements

A recognised bachelor degree (or higher award) in any discipline, or completion of the Postgraduate Qualifying Program. Applicants with a recognised bachelor degree or graduate certificate in a related discipline; or a bachelor degree (or higher award) in any discipline and at least two years' relevant work experience, may enter the program with advanced standing.

### Master of Business Information Systems

🕒 2yrs 📍 Melbourne 📅 February, July 💰 A\$40,240/year © 092700K

Learn what information systems can do, how they can be deployed effectively and about models to elicit business intelligence. You'll learn to understand the technology from a business and strategy perspective.

**Topics covered:** Database analysis and design, requirements analysis and modelling, strategic project management, technology essentials, enterprise architecture, strategy and governance, IS/IT risk and professional issues.

**Specialisations:** Accounting, Business Analytics, Digital Marketing, Entrepreneurship and Innovation, Finance, Financial Technologies, Human Resource Management, International Business, Project Management, Research, Supply Chain Innovation.

**Professional recognition:** This course is professionally accredited by the Australian Computer Society (ACS).

#### Entry requirements

A recognised bachelor degree (or higher award) in any discipline, or completion of the Postgraduate Qualifying Program. Applicants with a recognised bachelor degree or graduate certificate in a related discipline; or a bachelor degree (or higher award) in any discipline and at least two years' relevant work experience, may enter the program with advanced standing.

### Master of Finance

🕒 2yrs 📍 Melbourne 📅 February, July 💰 A\$44,340/year © 102233A

Gain specialised knowledge in modern finance. Learn how to become a proficient analyst, respectful of ethical values and social responsibilities and able to demonstrate expertise in financial technology.

This degree incorporates at least 70 per cent of the CFA Program Candidate Body of Knowledge (CBOK), so you will have a head start on obtaining the Chartered Financial Analyst® designation.

**Topics covered:** Financial technology, data analysis and visualisation.

**Specialisations:** Accounting, Business Analytics, Business Information Systems, Digital Marketing, Entrepreneurship and Innovation, Financial Technologies, Human Resource Management, International Business, Project Management, Research, Supply Chain Innovation.

#### Entry requirements

A recognised bachelor degree (or higher award) in any discipline, or completion of the Postgraduate Qualifying Program. Applicants with a recognised bachelor degree or graduate certificate in a related discipline; or a bachelor degree (or higher award) in any discipline and at least two years' relevant work experience, may enter the program with advanced standing.

# Settle in for study

Cosy corners designed for solo studying or group discussion can be found all over campus, not least in the AGSE building, home of the business school.

# Design

Influence the design of our everyday lives.

Are you interested in design practice, research, strategy or management? Want to deepen your knowledge of innovation processes and sustainability in design? Come immerse yourself in project-based, studio learning that echoes real-life work.

### Real industry experience

Choose from two interdisciplinary industry-connected streams in the Master of Design. In the Applied Design stream, you'll focus on design practice and entrepreneurship. Plus, you'll work alongside visiting designers and academics on projects that may stem from industry. Or, in the Design Factory Melbourne stream, you'll zoom in on design innovation and strategy. In this option, you'll get the chance to collaborate with industry clients and/or other hubs in the Design Factory Global Network.

### Advanced Manufacturing and Design Centre

Imagination becomes reality at our A\$100 million Advanced Manufacturing and Design Centre. Researchers, students and clients come together to test ideas and create prototypes using the latest manufacturing and design techniques and technologies.

Scan for more info →

### Design Factory

Design Factory Melbourne encourages a culture of innovation and collaboration – students, research leaders, industry partners and entrepreneurs come here to solve complex problems, generate solutions and forecast the future. From experimenting with concepts and their value to the early stages of a product, DFM offers programs and support to suit.

Florentina  
Master of Design

"In the Master of Design, I get to work on projects with real industry clients. For example, my team took a brief from the City of Casey, a local town council that has plans to upgrade and become a smart city. They were looking for a solution to allow communication between developers, citizens and themselves. The project itself was part of an inclusive and participatory design class, so we created a boardgame that would allow citizens of all ages, developers and council members to openly discuss and balance their needs, capabilities and budget constraints.

The client gave us feedback not just on the outcome, but also on the process, which is so important to my learning journey. I feel like I am getting real industry experience, which will help me find a job in the future."

We want you to graduate with high digital literacy. That's why all Swinburne students have free access to the full Adobe Creative Cloud suite. That's over 20 Adobe applications. Build your portfolios, personal websites, presentations and so much more.

### Master of Design

🕒 2yrs 📍 Melbourne 📅 February, July 💰 A\$37,940/year © 088128A

Enhance your expertise in interdisciplinary design practice across visual communication design, industrial design, interior architecture and digital media design.

Broaden your skills and knowledge in design practice, 3D printing, interaction design, design management, computer-aided design and visualisation tools. Gain practical skills in a project-based studio environment that focuses on the role of design in society, innovation and the global economy. Undertake one of two interdisciplinary industry-connected streams. The Applied Design stream focuses on design practice and entrepreneurship, and the Design Factory Melbourne stream focuses on design innovation and strategy.

**Topics covered:** Design strategy, design research, digital design, entrepreneurship.

#### Entry requirements

A recognised bachelor degree (or higher award) in design or related field\*, or a recognised bachelor degree in any discipline plus relevant professional experience\*\* in design or a related field.

\* Related fields may include architecture, landscape architecture, urban planning, digital arts, creative arts, multimedia or digital media, (web, mobile applications, audio or video production) product design engineering, design technology, games, animation and interactivity, and creative industries.

\*\*Relevant professional experience must be documented in either a portfolio or a detailed CV.

## Education

### Mentor the next generation.

If you already have a bachelor degree in a different field but want to become a school teacher, we have the program for you. Every class you attend is taught in an interactive workshop format. That means you'll be able to start practising your teaching and presenting skills from day one. This way, you'll be more than prepared to lead any classroom you step into.

#### Real industry experience

Complete 60 days of professional experience as part of your master degree.

#### Professional recognition

Our degrees are professionally accredited by the Victorian Institute of Teaching and the Australian Children's Education and Care Quality Authority, enabling graduates to register and teach anywhere in Australia.

### Master of Teaching (Primary)\*

🕒 2yrs 📍 Melbourne 📅 February 💰 A\$31,980/year © 098545A

Learn the latest technology, educational theories and practical skills required to teach in primary and middle school settings.

Gain invaluable professional experience through a supervised placement in a primary school.

**Topics covered:** Teaching, learning and development; literacy and numeracy; health and physical education.

All students are required to have a valid police check and a Working with Children Check.

#### Entry requirements

A recognised bachelor degree with at least one year of study relevant to one or more learning areas of the primary school curriculum. All applicants must demonstrate suitable English language proficiency and sit a non-academic online test to assess an applicant's personal and professional attributes.

### Graduate Diploma of Early Childhood Teaching

🕒 1yr 📍 Melbourne 📅 February, May, July, October 💰 A\$31,980/total © 113014K

Learn how to create engaging and supportive learning environments for children aged from birth to 5 years. Gain skills in supporting children's learning and development, as an early childhood teacher, and complete 60 days of professional experience as part of the course.

**Topics covered:** Teaching, learning and development; literacy and numeracy; health and physical education.

All students are required to have a valid police check and a Working with Children Check.

#### Entry requirements

A recognised bachelor degree (or equivalent) in any discipline, or a graded Australian Diploma of Early Childhood Education and Care (or recognised ungraded equivalent) and a minimum of five years relevant work experience (undertaken within the last seven years), in an early childhood education setting with related leadership responsibilities.

**Key** 🕒 Duration 📍 Location 📅 Intake 💰 Tuition fee © CRICOS code

# Engineering

Upgrade your technical skills and position yourself as an expert in your field.

Our engineering programs will help you deepen your knowledge and know-how in:

- building design
- engineering project management
- infrastructure modelling
- operations
- manufacturing processes
- risk management
- sustainability.

### Real industry experience

In the Master of Professional Engineering course, you'll gain real industry experience through two units – the Professional Engineering Entrepreneurship Project and the Professional Industry Project. Take real briefs, work on real solutions, present them and take feedback, just like in the workplace. Plus, our Career Success Program includes specialist coaching and workshops to help you build your network and prepare to find jobs.

All students can also apply for an internship. The commitment is usually 2 days a week for the duration of a semester with a reputable host organisation.

### Professional recognition

The Master of Engineering Science is professionally accredited by Engineers Australia. Graduates will be qualified to practice as a professional engineer without the need for a skills assessment.

Jagannatha  
Master of Professional Engineering  
[Robotics and Mechatronics]

“As part of my course, I worked on an industry project. We were asked by the client, UGL Limited, to design a data logger to solve a specific problem they were facing. In 12 weeks, my team and I created a working prototype that could operate continuously for four days without human intervention. My lecturer and the client were super supportive and guided us through the entire project.

- 

I also took part in an online hackathon which was organised through the Career Success Program. The brief was to create an electric vehicle charging solution for apartment dwellers. We won Best Team, not just for our idea, but also because of our collaboration and communication – this all happened virtually during COVID!

I'm very thankful for all the opportunities I've had and feel like I've truly experienced what it's really like out in industry.”

# Health

## Use cutting-edge tech for deeper learning.

Choose master degrees by coursework in:

- dietetics
- occupational therapy
- physiotherapy.

Or complete a research degree at the master and PhD level.

### Real industry experience

Our Master of Occupational Therapy and Master of Physiotherapy incorporate multiple professional work placements or clinical practice placements and industry-linked projects to ensure you're equipped for real workplace challenges even before you graduate. All other degrees offer you the chance to apply for an internship.

### Master of Dietetics

🕒 2yrs 📍 Melbourne 📅 February 💰 A\$47,040/year © 0100999

Develop skills in both traditional and emerging areas of dietetic practice, learning to work with a range of evolving food and health management strategies.

**Topics covered:** Sports nutrition, paediatric nutrition, entrepreneurship, leadership and business.

**Professional recognition:** This course is fully accredited by the Australian Dietetics Council (ADC).

#### Entry requirements

A three-year degree in a related study area completed in the last ten years with a minimum 65% GPA in the last year of study; or postgraduate studies completed in the last ten years with a minimum 65% GPA in the last year of study; or significant relevant work experience. Subject prerequisites include: chemistry/biochemistry, human biology and human physiology, and food and nutrition science.

### Master of Occupational Therapy

🕒 2yrs 📍 Melbourne 📅 June 💰 A\$43,940/year © 089748J

Gain skills and knowledge to work with clients who have difficulty participating in everyday life activities due to neurological, musculoskeletal or mental health issues.

Complete three professional work placements in community- or hospital-focused agencies that offer short-and long-term therapy, as well as an innovative project-based placement in the Design Factory Melbourne. Working in teams, gain industry experience by developing innovative solutions to problems provided by industry partners and consumers.

**Topics covered:** Occupational therapy theory, progressive neurological disorders, stroke, acquired brain injury, autism, mental health conditions, developmental delay in children, assistive technology.

All students are required to have a valid police check and a working with children check.

#### Entry requirements

A recognised degree completed in the last ten years with a minimum 65% GPA in the last year of study plus at least one unit in anatomy and physiology; or postgraduate studies completed in the last ten years with a minimum 65% GPA in the last year of study plus at least one unit in anatomy and physiology; or equivalent qualification and/or significant relevant work experience.

### Master of Physiotherapy

🕒 2yrs 📍 Melbourne 📅 July 💰 A\$51,030/year © 098499B

Gain skills and knowledge to assess and treat individuals who are experiencing physical difficulties caused by illness, disability, chronic disease or injury.

Be equipped with problem solving and critical reasoning skills, knowledge and understanding to become a confident, resilient and enterprising entry-to-practice physiotherapist. Complete four clinical practice placements during the course to experience authentic clinical environments and health care systems.

**Topics covered:** Musculoskeletal, neurological and cardiorespiratory physiotherapy; digital health and technology; business, leadership and enterprise, community physiotherapy.

All students are required to have a valid police check and a working with children check.

#### Entry requirements

A three-year degree completed in the last ten years in a health science discipline and/or degree-level studies in human musculoskeletal anatomy and physiology with a minimum 70% GPA in the last year of study. Degrees completed more than 10 years ago may be considered on the basis of recent postgraduate study and/or relevant work experience.

# Information Technology

Push to the forefront of the tech world.

Our IT courses are here to upgrade your skills and knowledge in:

- business information systems
- data collection and analysis
- cybersecurity
- IT project management
- network design and management
- programming and applications
- software development
- wireless and mobile networks.

### Real industry experience

All IT master degree students have the chance to apply for an internship. The commitment is usually 2 days a week for the duration of a semester with a reputable host organisation. In addition, you could work on industry-linked projects. In these projects, you'll work as a team with other students to solve real industry problems, present solutions and address feedback.

### Professional recognition

Our degrees are professionally accredited by the Australian Computer Society.

Chinmayi

Enterprise Support Network Engineer, Aussie Broadband  
Master of Science [Network Systems] graduate

“For my final project, my team members and I worked on a topic centred around the Internet of Things. An external client briefed us to build a home automation system in which the air-conditioning would automatically maintain the proper temperature. We created a prototype and presented it to the client in the middle of the semester. He provided us with feedback, which we implemented accordingly. The project was delivered within deadline and received a really positive response. I’m proud to say that I received a distinction.

That’s not the only team project I worked on – most units I studied involved this style of learning. I feel like it really prepared me for the workplace, where collaboration skills are key.

My course was also extremely comprehensive. When I interviewed for my job at Aussie Broadband, I was able to answer their detailed technical questions with depth and ease, thanks to the training I’d received at Swinburne.”

Find out more about Chinmayi’s study  
and industry experience →

### Virtual Design Lab

Swinburne’s Virtual Design Lab visualises, models and tests new systems and product ideas. Right now, they’re using virtual reality to evaluate above-ground fire shelters, investigating an e-plane that can take off vertically and so much more.

### Master of Cyber Security

🕒 2 yrs 📍 Melbourne 📅 February, July 💰 A\$41,240/year © 098492J

Build on your computer science qualifications and experience by developing the skills and knowledge required to identify, demonstrate, diagnose and fix flaws and threats in software systems.

Learn about system security, penetration testing, incident response, security management, reverse engineering and ethical hacking.

**Topics covered:** Web applications and databases, network programming, operating system management, networks and switching, cyber ethics, internet security.

**Professional accreditation:** This degree is professionally accredited by the Australian Computer Society.

#### Entry requirements

A recognised bachelor degree in science, technology, engineering or mathematics; or a recognised bachelor degree in any discipline plus at least three years' industry experience in web development, cybersecurity, software development or related fields, or successful completion of the Graduate Certificate of Cybersecurity.

### Master of Data Science

🕒 2 yrs 📍 Melbourne 📅 February, July 💰 A\$41,240/year © 099117B

Learn how to gain meaningful insight from data obtained from business, government, scientific and other sources.

Expand your knowledge and understanding of computer science and data analytics, develop skills in state-of-the-art techniques and contemporary tools covering the entire data management lifecycle.

**Topics covered:** Big data, statistics, data management, data visualisation, data mining, data science, machine learning.

**Professional accreditation:** This degree is professionally accredited by the Australian Computer Society.

#### Entry requirements

A recognised bachelor degree (or higher award) in any discipline, or completion of the Postgraduate Qualifying Program.

### Master of Information Technology

🕒 2 yrs 📍 Melbourne 📅 February, July 💰 A\$40,240/year © 001742J

### Master of Information Technology (Professional Computing)

🕒 1.5 to 2 yrs 📍 Melbourne 📅 February, July 💰 A\$30,180/year © 061755G

Develop advanced specialist skills in areas such as networks, software development, and information systems analysis and management. Apply your skills through industry-related project work, including industry-linked projects for real clients.

**Topics covered:** Business information systems, working with data, programming and applications, project management.

**Specialisations:** Data analytics, information systems, mobile and cloud computing, and software development.

**Professional recognition:** This program is professionally accredited by the Australian Computer Society.

#### Entry requirements

A recognised bachelor degree (or higher award) in any discipline, or successful completion of the Postgraduate Qualifying Program.

Applicants with a recognised bachelor degree in an IT-related discipline covering at least the fundamental knowledge of computer programming, web system development, database, and business applications of computer systems, are eligible to apply for the Master of Information Technology (Professional Computing).

### Master of Science (Network Systems)

🕒 1.5 to 2 yrs 📍 Melbourne 📅 February, July 💰 A\$30,180/year © 054543M

Develop theoretical knowledge and practical skills related to network design, the management and service provision of private and public network systems, wireless and broadband technologies, and the security and protection of networked and computer systems.

**Topics covered:** Network administration and programming, network design and management, wireless and mobile networks, digital security.

**Professional recognition:** These programs are professionally accredited by the Australian Computer Society.

#### Entry requirements

A recognised bachelor degree in engineering, science, or information technology.

# Media and Communication

In this industry, change happens every second. Learn how to stay ahead and thrive.

Become an industry leader by focusing on how to take change in your stride. You could find yourself excelling in:

- interactive content creation
- journalism
- public relations
- digital media production
- advertising
- communications research
- radio.

#### Real industry experience

As part of your degree, you'll work on industry-linked projects and experiences. In teams, you'll receive briefs modelled on real issues, present your ideas and solutions then address feedback, just like in the workplace. By going through this the process, you'll build your portfolio and prepare for your career, even before graduating. On top of that, you'll also have the opportunity to apply for an internship.

"At Swinburne, you don't just learn things, you learn how to do things. This sets you apart in the job market. When I tell contacts I produced a podcast in my bedroom, made a documentary in my kitchen and two long-form multimedia news stories from my living room, they are impressed."

### Master of Media and Communication

🕒 2 yrs 📍 Melbourne 📅 February, July 💰 A\$37,240/year © 093362D

Gain a range of media production skills and the digital technology, professional development, research and project management skills that can take your career to the next level.

Choose to specialise in media practice, strategic communication or social media management. Build relationships with industry and external stakeholders before you graduate with an industry-based media project.

**Topics covered:** New media, media production and practice, global media, media policy.

#### Entry requirements

A recognised three-year bachelor degree with a minimum average score of 60%; or completion of the Postgraduate Qualifying Program with a minimum average score of 60%.

**Key** 🕒 Duration 📍 Location 📅 Intake 💰 Tuition fee © CRICOS code

# Cutting-edge technology

The ProtoLAB supports students in design, engineering and architecture and meets the needs of academic research, testing and industry partnered work.

## Science

Home to internationally leading research institutes and centres.

### Space Technology and Industry Institute

We combine capabilities in astrophysics, aerospace, aviation, advanced manufacturing and AI to tackle challenges in the up-and-coming space industry.

### Centre for Astrophysics and Computing

We operate OzStar, a national supercomputing facility. Our agreement with the Keck Observatory guarantees our researchers at least 15 nights of observation a year, and we have an active program of research and development in the planned Square Kilometre Array project.

### Centre for Translational Atomaterials

Our research directly contributes to the development of new generation atomic materials and technologies, which will impact the societal and business enterprise landscape of Australia and beyond.

### Real industry experience

Master of Science (Biotechnology) students will complete at least one research project. You will work in teams to practise scientific research methods and project design, as well as develop your practical and problem-solving skills. In addition, all master degree students are guaranteed the chance of applying for an internship.

### Master of Science (Biotechnology)

🕒 2yrs 📍 Melbourne 📅 February, July 💰 A\$42,240/year © 055216G

Gain an in-depth understanding of the fundamental principles of biotechnology, including molecular biology; biochemistry; microbiology; and medical, industrial, forensic, agricultural and environmental biotechnology.

**Topics covered:** Environmental biotechnology, genes and molecular biology, scientific problem-solving, research methodology.

**Professional recognition:** Graduates may be eligible for membership of AusBiotech Ltd, Genetics Society of Australia, Australian Society of Biochemistry and Molecular Biology, and Australian Society for Microbiology.

# Higher degrees by research

## Search for new ways of thinking and doing.

With a research degree, you are free to pursue questions no one has answered before. From there, you could start an academic career, go further in your current career or simply find more insight into our world. Our research degrees will give you access to world-class researchers, first-rate facilities, training and support.

### Outstanding world-changing research

At Swinburne, we conduct research that creates impact. We focus on challenges faced by modern society. And we regularly make contributions that inspire, excite and transform communities for the better.

These are where we concentrate our research and development activities:

- inspirational science and technology
- future manufacturing
- sustainable futures
- digital innovation
- personal and social wellbeing.

### Australia's first Nobel Peace Prize

A lifelong activist, Dimity has always pursued the goal of nuclear weapon disarmament. She co-founded ICAN, the International Campaign to Abolish Nuclear Weapons. For their efforts, ICAN was awarded a Nobel Peace Prize. However, she knows that the fight is far from over – 69 nations abstained from the vote, including countries with nuclear weapons and members of NATO. Yet she looks forward to every coming challenge.

### Dimity Hawkins AM

Scan for more info about Dimity and her study experience →

### Master by Research

🕒 2yrs 📍 Melbourne 📍 S 📅 All year 💰 See page 53 © see Course Search

Undertake supervised research in a related discipline of your choice. Develop a range of skills, including independent thinking, project management, data analysis and critical thinking as well as refined communication skills.

Swinburne offers Master by Research degrees in broad study areas:

- Arts
- Business
- Design
- Engineering
- Health Sciences
- Information and Communication Technologies
- Law
- Science.

### Doctor of Philosophy

🕒 4yrs 📍 Melbourne 📍 S 📅 All year 💰 See page 53 © see Course Search

Undertake supervised research with the aim of making a significant and original contribution to a discipline or profession.

Swinburne offers PhD study in broad research areas:

- Business\*
- Business – Practice-based Research
- Clinical Psychology
- Design\*
- Engineering\*
- Health Sciences\*
- Humanities, Arts and Social Sciences\*
- Information and Communication Technology\*
- Information Systems\*
- Law\*
- Science\*
- Technology Innovation – Science, Engineering and Technology
- Technology Innovation – Health, Arts and Design
- Technology Innovation – Business and Law.

### Doctor of Psychology (Clinical and Forensic Psychology)

🕒 4yrs 📍 Melbourne 📅 All year 💰 A\$37,800/year<sup>1</sup> © 083182B

This professional doctorate combines intensive high-level research training in clinical psychology and training in forensic psychology by way of coursework, clinical placements and a research thesis concerned with clinical forensic psychology.

### Entry requirements

A three-year degree with a minimum average of 65% in the final year units of study. Other relevant experience will also be taken into account in assessing applications.

### Entry requirements

Completion of at least four years (or equivalent) of tertiary education studies in a relevant discipline at a high level of achievement, and approved for the award of the degree(s) for which they studied. A high level of achievement is defined as the equivalent of a four-year Swinburne honours degree that includes a significant research component in the fourth year, leading to an honours degree class 1 (average grade 80–100) or class 2A (average grade 70–79) level.

\*As part of this Doctor of Philosophy program, you can concurrently study a Graduate Certificate of Research and Innovation Management.

Scan for more info →

### Entry requirements

A four-year degree from an Australian university and completion of a four-year sequence of studies in psychology at first or upper second-class level in a course or courses accredited by the Australian Psychological Society, or equivalent overseas qualifications recognised by the APS, or a masters degree in psychology recognised by the APS.

### Interested in applying?

Your research topic should align to one of our areas of research. Search for the entry requirements of your program, check for scholarship opportunities, find a supervisor then submit.

# English language courses

## ELICOS+

- English classes packaged together with your Swinburne course.
- Get refunded for up to 10 weeks' worth of ELICOS tuition fees in the first three semesters of your course.
- That's almost A\$4400 worth of English lessons.
- This offer is exclusive to Swinburne and will help raise your English to university standard.

## Why study English at Swinburne?

- Swinburne is placed in the Top 1% of universities worldwide<sup>1</sup>
- We are rated 5 Stars for the quality of our educational experience<sup>2</sup>
- Progress directly into other Swinburne courses
- Personalised study experience and extensive student support
- Free English testing
- Maximum of 18 students per class
- Studying in Australia's no. 1 student city<sup>3</sup>

<sup>1</sup> QS World University Rankings 2024  
<sup>2</sup> Good Universities Guide 2024  
<sup>3</sup> QS Best Student Cities Ranking 2024

## What will it cost?

A\$480 per week. Course duration is from 5 to 60 weeks, depending on your ability and goals.

## When can I start?

Don't wait to start improving your English. We run classes every five weeks:

- 8 January 2024
- 12 February 2024
- 18 March 2024
- 29 April 2024
- 3 June 2024
- 15 July 2024
- 26 August 2024
- 7 October 2024
- 11 November 2024

## General English (levels G1 to G3)

These are your English essentials. Our fun and interactive classes are designed to maximise your independence and personal development. Improve your overall English so you can speak with confidence and take our higher level English programs.

## English for Academic Purposes (levels EAP 3 to EAP 5)

These courses are a step up from General English and will give you direct pathways into Swinburne's master and PhD courses. Learn communication skills for a higher level of study and how to think critically.

These classes use scientifically supported learning strategies and real-world case studies. You'll learn how to analyse and respond to a range of current media.

## English language requirements for postgraduate study

You'll need to successfully complete one of the following English language requirements:

- Swinburne's EAP 5 (Advanced level) with overall 70% and all skills 65% or above
- Minimum IELTS overall band of 6.5 (Academic Module) with no individual band below 6.0
- TOEFL (internet-based) minimum score of 79 with no band less than 13 in reading, 12 in listening, 18 in speaking 21 in writing
- Pearson (PTE) minimum score of 58 (no communicative skills less than 50).

Note: the Masters of Dietetics, Occupational Therapy, Physiotherapy, and Teaching have higher English proficiency requirements. Refer to Course Search for more information:  
[swinburne.edu.au/study](http://swinburne.edu.au/study)

Scan for more info about ELICOS →

# Postgraduate qualifying program

## The skills to succeed

The Postgraduate Qualifying Program (PQP) combines English language training and academic studies to equip you with the skills you'll need to succeed in postgraduate study.

Successful completion of the PQP provides a guaranteed pathway to the first year of a range of postgraduate degrees including:

- Master of Business Administration (MBA)
- Master of Business Information Systems
- Master of Data Science
- Master of Finance
- Master of Financial Technologies
- Master of Human Resources Management
- Master of Information Technology
- Master of Marketing
- Master of Media and Communication
- Master of Professional Accounting
- Master of Professional Accounting (Extended)
- Master of Project Management
- Master of Social Impact
- Master of Supply Chain Innovation.

## PQP at a glance

Duration	6 months
Intake	February, July
Location	Melbourne, Australia
Tuition fee	A\$15,440
CRICOS code	0101744
Course structure	You'll complete four units: COM10010: Academic Practices and Communication Skills LAL10003: Applied Academic Literacies MFP30001: Critical Thinking for Further Study MFP30002: Research Techniques for Further Study
Academic requirement	Successful completion of an accredited three-year post-secondary qualification from a recognised institution.
English language requirements	Swinburne's EAP 5 (Advanced level) with overall 65% and all skills 60% or above. Minimum IELTS overall band of 6.0 (Academic Module) with no individual band below 5.5. TOEFL (internet-based) minimum score of 60 with no band less than 10 in reading, 9 in listening, 16 in speaking, 19 in writing. Pearson (PTE) minimum score of 50 (no communicative skills less than 45).

## IELTS levels and course duration

You'll enter at the course that matches your current IELTS level.

# Optimising your university experience

From the day you start planning to move countries till the day you graduate, we have all the information you need to make your Swinburne experience amazing.

## Living options, costs and visas

From on-campus apartments to living with a host family, explore all your options here.

We understand how important it is for you to plan your budget carefully. Find out what things cost in Melbourne and how banking works here.

Discover all the information you need to apply for an Australian student visa here.

## Feeling confident

We're here to help you through all aspects of life during your time at uni.

### Support services

We're geared up to help you with:

- careers and employment
- counselling
- health
- housing
- disability support
- financial advice
- advocacy and legal advice
- childcare.

### Safety services

We take your safety seriously. Access these services any time you need them.

- take the Hawthorn Night Bus home if you live in the neighbourhood
- ask a patrolling security officer to walk you anywhere on campus
- link to emergency and support services, safety tools and campus maps via the Safe@Swin app
- speak to our Safer Community team for support on bullying, harassment and more.

### International Student Advisers

Our dedicated team is here to answer any question you may have, whether big or small. Visas, accommodation, finding a job, help during emergencies and more. Read all about them.

## Finding community

Get involved, volunteer and make social connections.

### Swinburne Student Life

Find clubs, sport, volunteering and leadership opportunities here. Student Life also organises fun events like Orientation, the Pride parade, Netflix parties and other gatherings.

### Swinburne Student Union

The Student Union represents the interests of students to the university and provides additional support services as well, like

- free weekday breakfasts
- free printing
- locker hire
- local discounts and more.

# Applying for degrees by coursework

Follow these steps carefully to ensure your application is processed properly.

## 1 Check your start date

Visit [swinburne.edu.au/study/options/find/start-dates](https://swinburne.edu.au/study/options/find/start-dates) to check start dates for intakes. If you're an offshore international student, you should apply at least 3 months before your intake's start date.

## 2 Gather your documents

- Certified academic transcripts with grading system
- English translations where applicable
- Certified English proficiency test results
- Referee reports (if applicable)
- Portfolio (for design courses, if applicable)
- Course or unit syllabus if you're applying for credit transfer or Recognition of Prior Learning
- Copy of passport (photo page and relevant visa page).

## 3 Complete your application

Visit [student.swinburne.studylink.com](https://student.swinburne.studylink.com)

If you need help, please speak to your registered Swinburne representative in your home country.

## 4 Wait for your offer

We will assess your application. If you're successful, you will receive a letter of offer via email.

The letter will indicate the:

- course you've been offered
- annual tuition fee\*
- student services and amenities fee†
- course commencement date
- course duration
- deposit you need to pay
- fee for your visa-length overseas student health cover
- conditions to the offer.

\*Tuition fees are based on a standard full-time study load per year. All fees are subject to annual review and may be adjusted. Visit [swinburne.edu.au/courses/fees/fees-for-international-students/](https://swinburne.edu.au/courses/fees/fees-for-international-students/) to learn more about fees.

†For the indicative fee for your course, see the course entry in this guide or visit the 'Fees' section on the course webpage [swinburne.edu.au/courses/find-a-course/](https://swinburne.edu.au/courses/find-a-course/)

‡Tuition fees are generally inclusive of the Student Services and Amenities Fee (SSAF). Visit [swinburne.edu.au/courses/fees/student-services-amenities-fee/](https://swinburne.edu.au/courses/fees/student-services-amenities-fee/) to learn how the SSAF is used.

## 5 Accept your offer

Accept by the date specified in your offer letter.

Visit [swinburne.edu.au/study/international/offer](https://swinburne.edu.au/study/international/offer) to find out how to accept your offer.

Note: If you receive a conditional offer, you need to meet the condition(s) outlined in your offer letter.

Visit [swinburne.edu.au/study/international/apply](https://swinburne.edu.au/study/international/apply) for detailed application instructions.

If you need help with your application, email our application adviser at [international@swinburne.edu.au](mailto:international@swinburne.edu.au)

You can also speak with a registered Swinburne representative in your home country. Visit [swinburne.edu.au/study/international/connect/representatives](https://swinburne.edu.au/study/international/connect/representatives) to search for a list of Swinburne representatives in your country.

# Other information

## Applying for credit transfer

### What is credit transfer?

Credit transfer is exemption from certain course requirements in recognition for previous study. The term 'credit' is used interchangeably with 'Recognition of Prior Learning', 'advanced standing' and/or 'status' in Australian universities.

### How to apply for credit transfer

You can apply for credit transfer by submitting a course or unit (subject) syllabus or other evidence of your skills with your application. You must also indicate on your application form that you're applying for credit transfer.

If you're applying for credit transfer for a design course you may need to submit a portfolio.

If your application for credit transfer is successful, your letter of offer will state the updated course duration and the amount of credit for which you have been assessed. If you do not apply for credit transfer when you submit your application, you can do so within the first week of commencing your course. Applications for credit transfer made after this time may not be approved.

## Applying for your student visa

You will need to obtain an Overseas Student Confirmation of Enrolment (CoE) from Swinburne to complete your student visa application. Your CoE must accompany your application. Visit [homeaffairs.gov.au](https://homeaffairs.gov.au) for more information.

## Overseas student health cover

All student visa holders must have overseas student health cover (OSHC) for the duration of their study.

Swinburne will arrange your visa-length OSHC membership with our preferred provider, Medibank Private. The OSHC fee will be included with your deposit indicated in your letter of offer.

Visa-length OSHC membership is a once-only payment that provides rate protection for the duration of the visa. This means that even if OSHC fees increase during the duration of your visa, you do not have to pay any increase.

If you need to extend your OSHC (for example, if you fail some units and need to extend your stay in Australia to complete your course), it is your responsibility to do this directly with the OSHC provider. Additional fees will be charged at time of renewal.

Visit [swinburne.edu.au/international/arrival/health-cover](https://swinburne.edu.au/international/arrival/health-cover)

## Students with families

If you plan to bring your family to Australia, check if any restrictions apply by contacting the Department of Home Affairs or the Australian diplomatic mission in your country. You will also need to hold OSHC membership for your family.

Visit [swinburne.edu.au/study/international/plan-arrival/family](https://swinburne.edu.au/study/international/plan-arrival/family)

### Children

If you have children between five and 15 years of age who you plan to bring to Australia, you must enrol them in school. Full fees are payable at both government and non-government schools.

If you will be enrolled as a postgraduate research student at Swinburne, the Victorian Government may provide exemption from tuition fees in Victorian government primary and secondary schools for your children.

Visit [education.vic.gov.au](https://education.vic.gov.au) to find a complete list of Victorian primary and secondary schools. Information about fees, applications and enrolment for government, primary and secondary schools may be found online at [study.vic.gov.au](https://study.vic.gov.au)

Applications to non-government schools must be made directly to the school of your choice.

Note: Your student visa assessment criteria may change if your family is accompanying you to Australia.

## Your rights and responsibilities

The Educational Services for Overseas Students (ESOS) Act regulates the education and training sector's involvement with overseas students studying in Australia on student visas.

Visit [studyinaustralia.gov.au/global/australian-education/education-system/esos-act](https://studyinaustralia.gov.au/global/australian-education/education-system/esos-act) to read a description of the ESOS framework.

Restrictions may apply if you wish to change your enrolment. Visit [swinburne.edu.au/current-students/manage-course/enrolment-timetable/time-off/international/](https://swinburne.edu.au/current-students/manage-course/enrolment-timetable/time-off/international/) for more information about deferring, suspending or cancelling your enrolment.

Visit [swinburne.edu.au/current-students/manage-course/fees/fees-for-international-students/refunds](https://swinburne.edu.au/current-students/manage-course/fees/fees-for-international-students/refunds) to read Swinburne's refund provisions, which are outlined in the offer acceptance form.
