What is PRINCE2?

PRINCE2® - PProjects IN Controlled Environments

PRINCE2 is a process-based approach for project management providing an easily tailored and scalable method for the management of all types of projects. The method is the de-facto standard for project management in the UK and is practiced worldwide.

The continued international development of PRINCE2 examinations, training and course material is contributing significantly to the recognition of PRINCE2 as a truly international standard. More and more people are having the opportunity to benefit from the training courses and qualifications that are available worldwide.

Recommended for

- Project Managers,
- Project Coordinators,
- Project Officers,
- Team Leaders, and
- Project Team members.

Purpose

PRINCE2 Foundation PMM Course is a fully accredited project management method intended for all sizes of projects; from small and medium to large projects.

The course is designed to:

- Explain the purpose, scope and value of the PRINCE2 Project Management Methodology.
- Introduce and explain in detail, the method's processes, themes and principles.
- Provide detailed knowledge to enable the Project Manager/Team Leader to actively apply with confidence the method to a project.

Benefits

- With sufficient practice and review the participants should be able to apply the PRINCE2 Project Management method effectively to manage any size project.
- The organization will benefit from the enhanced competence of Project Managers leading to increased productivity and improved project outcomes.

→ Format & Presentation

This course is delivered over three days with exam on the fourth morning. It is a blend of instruction through lectures and audio-visual presentations and extensive case study work on real projects by syndicates of participants. It follows the principles of accelerated learning.

Participants receive comprehensive course manuals along with the OGC's Managing Successful Projects with PRINCE2® manual.
