

2nd Annual International Symposium on Emotional Intelligence

9am – 5pm on Friday 27 October 2006

Swinburne University of Technology
TAFE Conference Centre, Hawthorn Campus
Room TD 121

BRAIN
SCIENCES
INSTITUTE

SYMPOSIUM DETAILS

The field of emotional intelligence (EI) is growing at a rapid rate. EI is being used in a variety of applications including the workplace, the school system and for personal development. It has been suggested that EI is important for leadership, performance, scholastic success, life satisfaction and inter-personal relationships. Over the last 5 years many models and tests of emotional intelligence have emerged.

Following the success of the 2005 International Symposium on Emotional Intelligence, Swinburne University is proud to announce that the International Symposium on Emotional Intelligence will run again in 2006. This one-day symposium will bring together national and international academics and practitioner to discuss recent advances in Emotional Intelligence research and practice. The symposium presents a comprehensive discussion on a number of issues concerning the construct of EI; EI in the workplace; EI in educational settings; and best practice in developing EI. At the end of the day there will be an interactive discussion between the speakers and the audience on important and critical issues related to this construct.

PRELIMINARY PROGRAM

8am – 9am

Registration

9am – 9.15am

Welcome (Prof. Con Stough)

9.15am – 10.30am

Research on the construct of EI
