

Research Degree Students

Professional Doctorate of Psychology (Clinical Psychology)

Michele Bell	The Process of attachment when an infant is born premature
Emma Butler	Mindfulness based stress reduction in primary school aged children
Matthew Currie	Aggression Replacement Training (ART): An evaluation study.
Jane Dunkley	Post-traumatic growth
Deborah Eyles	Depression in adolescents: the role and pathway of individual factors in the development of depression
Jennifer Gosden	Support measure used by IVF couples and how this affects their ability to cope with IVF
Jennifer Lloyd	Emotional intelligence development in children
Marie Roberts	Family functioning and mature-age mothering
Alison Schafer	Predictors of acculturation and adaptation of new Australians that promote psychological well-being
Tania Slaviero	Impact of meditation on children's health
Marcus Squirrel	Psychological assessment and treatment efficacy of chronic pain sufferers in group therapy
Rebecca Wickham	The role of neurological behavioural approach and inhibition pathways in the binge-purge cycle for eating disordered individuals
Tamara Wolan	The effect licit and illicit drugs have on affective processing and storage of trauma and non-trauma -related information
Deborah Zaks	Development, piloting and evaluation of a brief humour intervention designed to enhance the well-being of both clinical and non-clinical groups

Professional Doctorate of Psychology (Counselling Psychology)

Emma Aiken	Interpersonal needs and values: authenticity, belonging, independence and narcissism
Kathryn Anderson	Subjective identity: processes and challenges, or, the path to being me
Loretta Bell	Autobiographical memory recall, self-concept and cognitive functioning in female with post-traumatic stress disorder
Matthew Berry	Investigating the role of motivation in maintaining changed drug-using behaviour
Adele Carmady	Factors that improve couple counselling
Robert Cole	Core beliefs and significant life events
Louise Cooper	Parkinson's disease, employment and quality of life
Kenneth Greenwood	Relative efficacy of self-help treatment for insomnia
Miriam Grossbaum	Negotiating life challenges: midlife perspectives
Tanya Harkness	Narrative themes in depression and vulnerability to depression
Karen Johnson	Attachment and conflict resolution styles as predictors of marital satisfaction for long-term couples with children

Marian Kolta	Malingering: Can it be detected?
Monica Lederman	Young adults' views of life
Colleen Lovell	Supervisee experiences of poor and harmful clinical supervision
Wenda McPherson	The Experience of families who have a member with a diagnosis of borderline personality disorder
Lyndon Medina	Children and adolescents who sexually abuse: Trauma, motivation and family environment
Renee Miller	The assessment of postnatal depression, anxiety and stress using a cognitive vulnerability-stress model: A role for perceived control and individual characteristics
Filia Papadimitriou	Evaluating counselling effectiveness: Comparison and evaluation of various models
Ann Pensom	Relationships in the workplace: The effects of attachment style, personality, family adjustment and emotional intelligence
Maureen Pianta	Spirituality as a psychological resource for coping in times of adversity
Amanda Rethus	Why senior women exit corporations mid-career
Helene Richardson	Emotional trauma and healing: Examining different counselling interventions
Maribel Sanchez-Rockliffe	Understanding the influence of migration on personal identity
Cassandra Schwind	Bad luck comes in three's: A narrative approach to the positive and negative impact of cumulative negative events
Elizabeth Shelton	Women's experience of embodiment in gestation and birth giving
Vivien Silbert	Conscious and unconscious transmission of trauma in 2nd and 3rd generation Holocaust survivors
Jacqueline Tracey	The experience of commissioning surrogate couples
Vicki Trethowan	Preparation of school counsellors for dealing with school crisis management in the 21st century
Susan Wheeler	Investigation of the desired attributes required by child protection workers
Diana White	The effects of personality, value system and authoritarianism on culpability judgments
Hannah Woolhouse	Mindfulness-based cognitive therapy (MBCT) for the prevention of relapse of depression
Katie Wyman	Counselling process and therapeutic change for clients attending a university psychology clinic

Professional Doctorate of Psychology (Health Psychology)

Deirdre Gartland	Using a new measure of resilience (Adolescent Resilience Questionnaire) to investigate the relationship between resilience and emotional well being among young people in general and young people living with a chronic illness
Naomi Hackworth	Developing and application of a methodology for the evaluation of a health complaints process

Rosemary Higgins	Factors related to spontaneous changes in fat intake and physical activity after coronary angioplasty
Usha Mudaliar	Impact of parental cardiac illness on adolescent children
Grant O'Sullivan	Body image and psychological disturbance in targeted 'At Risk' groups of men
Sally Shaw	Seeking support or staying silent: Predictors of behaviour following a diagnosis of multiple sclerosis

Master of Arts (by research)

Vanessa Bilog	The investigation of neuro-cognitive, mood and brain egg effects of Pine Needle extract, Ropren, on healthy elderly patients
Samuel Duncan	The role and impact of commercial media in the development and change in popular culture.(predominantly sport)
Anastasio Garcia Rodrigue	Supercomputing applications in pulsar timing
Stephen Garvey	The maintenance of cultural hegemony and its ramifications upon democracy
Willie Kamara	Charter of rights in the Australian states
Gordon McCaskie	Brian Boyd: a biography of a trade unionist
Catherine McMahan	The eye of the storm - the impact of covering disaster on journalists
Alfandi Yahya	An investigation of game-based learning to assist student understanding of user experience design

Master of Applied Science (by research)

My Linh Ly	Coatings from recycled PET for paper and cardboard
-------------------	--

Master of Science (by research)

Robert Bell	"Pitch"- The percussion instruments' timbral classification hierarchy
Robert Chapman	Oculomotor characteristics of horizontal and vertical saccades during visual search
Lana McLean	An evidence-based evaluation of Emotional Intelligence intervention therapy in the context of intimate relationships
Nicholas Romeo	An evaluation of quality, accuracy & implications of type III & IV portable polysomnography versus gold standard
Geek Ching Tan	Cloning and expression of the Capsid gene of human Calicivirus

Doctor of Philosophy

Yulia Alekseeva	Actin related proteins in marine Proteobacteria
Laith Al-Mashat	Developing a new technique for a magnet-friendly eye tracker system
Thomas Alves	Managing medium density housing development: A municipal case study
Robyn Ambler	Re-connecting, re-establishing, reviewing relationships and the process of recovery: The lives of women and their children after leaving situations of domestic abuse
Dianne Anderson	Functional neuroimaging of development of memory in children
George Aranda	Functional brain electrical activity imaging during affective facial processing in people with Schizophrenia
Andrew Armstrong	Why EI Matters: The effects of emotional intelligence on psychological resilience, communication and adjustment in romantic relationships, and workplace functioning
Adeel Arshad	Epidemiology of human Rotavirus causing disease in children
Ronald Aspin	Public-private partnerships as a solution to housing affordability problems: a case study of inner urban development
Christopher Baker	Intergenerational transfer of wealth in Australia in the first half of the twenty-first century
Cali Bartholomeusz	The effects of estrogen treatment on neurocognition in healthy women and women with schizophrenia
Julie Barton	The neural substrates of false memory
Katrina Bello	Assessment and treatment software for developmental disabilities based on neuroscientific theories of information processing
Jacqueline Bermingham	Immunological responses to Rotavirus nonstructural protein, NSP4
Gordon Bewsell	Colloidal characterisation of biologically derived substrates
Gareth Boardman	An information theory interpretation of relativistic phenomena
Dina Bowman	Desperately seeking success: The family life of entrepreneurs
Nicola Brackertz	Managing for service outcomes: an investigation of management changes in Victorian local government authorities due to the implementation of a strategic facilities management
Gordana Bruce	Living with heart disease: The needs of cardiac patients and their partners and the effect of heart disease on the couples' relationship
Clare-Louise Brumley	The health status of endurance athletes
Benjamin Bullock	Mood disorders and circadian rhythms
David Camfield	The biological basis of personality: The relationship between personality traits and electrophysiology
Lai Cheng Chan	Narratives of clients' traumatic experiences: The impact on relationships and self-esteem
Sheau Tsuey Chong	After school activities: To promote positive youth development through community programme
Allison Clarke	The impact of Epilepsy on the psychological functioning of young people
Mathilde Clements	Emotional Intelligence (EI) in sport, with emphasis on the role EI plays in prediction of performance-level in athletes

Fallon Cook	The search for a neural basis of “recovered” memories of childhood abuse
David Cooper Vanessa Cropley	Biological and chemical investigation of traditional medicinal plants Dopamine receptors and prefrontal function: molecular and electrophysical imaging in patients with schizophrenia and healthy controls
Lyndel Cuesta	Differentiating the entrepreneurial life story: Investigating narrative identity in relation to business failure
Frank Danieli	The measurement of distributed processing in the neocortex via EEG
Mark Di Marco	Grief and bereavement in people with an intellectual disability and complex communication needs
Rocco Di Vincenzo	Nutritional influences of the development and progression of non insulin dependent diabetics mellitus (NIDDM) in lean adult Vietnamese respondents
Luke Downey Martin Dubaj	The psychological determinants of sporting performance An objective investigation of neural electrical activity evoked by taste stimuli in humans
Jacques Duff	Investigation of the effectiveness of neurotherapy in the treatment of ADHD using SSPT
Peter Eide	Psychological, neuropsychological and electrophysiological correlates of mild depression
Sarath Ekanayake	Characteristics of particles contributing to turbidity in portable water distribution networks
Gina Ekermans	Exploring the emotional intelligence construct: A cross-cultural investigation
Daniel Eldridge	The characterisation and adsorption properties of the three crystal structures of titanium dioxide
Kane Elfman Peter (Scott) Ewing George Favas	Episodic memory Wired high rise: A case study in new forms of governance Lignite drying technologies for power generation: physicochemical properties and combustion reactivity of dried lignite products
Irina Filonenko	Parents and children's communication patterns in interpersonal conflicts
Kerrie Forrest	Investigation of the gene family encoding aquaporins, the protein channels regulating water movement, in wheat
Brett Foster John Fowler Carly Gamble	Mechanisms of anesthetics at molecular and cellular level The impact of public policy on the pharmaceutical industry Transient telomerase gene delivery to rejuvenate Myofibroblasts for tissue engineering
Andrea Garing	Charlatanism: The real impostors of the business and academic world
Nahal Goharpey	Repetitive behaviour in Autism as a symptom of executive dysfunction
Peter Gollan	Investigations of wheat genes encoding immunophilins involved in regulation of storage protein folding, chloroplast function and plant development

Aaron Gosling	Use of biological entities (enzymes and/or microbes) to catalyse a desired chemical transformation
Marcus Gray	Models of Human Anxiety: An investigation into the psychophysiological, neuropharmacological and behavioural facets of anxious experience
Valerie Guille	Event related potential (ERP) markers of serotonergic and dopaminergic function
Barry Hancock	An inquiry into the politics of rural water allocation in Victoria
Kristi Hanson	The production, extraction and characterisation of <i>Agaricus bisporus</i> Laccase from spent mushroom substrate
Teresa Harding	Predicting optimal emulsifier systems using interfacial tension
Elizabeth Harris	Nutritional interventions in cognitive decline
Philip Harris	Cortical activity associated with rhythmic grouping of pitch sequences
Elaine Hartley	The fractal self: from indeterminacy to participatory constructions of meaning
Samantha Henderson	Friendster: A case study in the merging of online and offline friendship networks
Kathryn I'Anson	OCD in context: Issues of self and identity and implications for treatment
Hamish Innes-Brown	The cognitive neuroscience of cross modal attention: An exploration
Barbara Ives	Inner urban public housing redevelopment - A case study of the high rise estate at Kensington, Melbourne
Melinda Jackson	The effects of sleep deprivation and dexamphetamine on neuropsychology function and driving performance in professional drivers
Glenn Jessop	Disability and wired communities
Gregory Jordan	The structure-activity relationship of active ingredients in essential oils
Ivanka Juric	Cortical function in post-traumatic stress disorder (PTSD): Steady state probe topography (SSPT) study of working memory
Helen Kalaboukas	Suicidal ideation and behaviours across cultures in Australian tertiary institutions
Fiona Kelly	Microorganism-particle association in water supply systems
Sugandh Kesharwani	Purification of (FiFo) ATP synthase from <i>sulfitobacter</i> and <i>marinobacter</i> sp. and its biochemical and functional characterization
Teddy Kurniawan	Computation of induced internal electromagnetic fields within human body due to external radio-frequency exposure
Antony Lamb	Idealism, Cooperation or Opportunism? - a study of the relationships between Australia's first minority Country Party government and the majority parties. Labor and Conservatives through a biography of Lt. Hamilton Lamb MLA, only sitting MP to die for Australia during World War 2
Julia Lamborn	Landfill decomposition behaviour
Margaret Learmonth	The 1989 pilots' dispute: The accord, the mates and the renegade union

Shuk Man Sumie Leung	Determining the pharmacology of mismatch negativity: An electrophysiological investigation in healthy subjects
Hongwei Li	Aging related changes in sustain attention: A functional brain electrical activity study
Sally Li	Application of structural and functional neuroimaging methods in the investigation of early Alzheimer's disease (AD)
Karin Lindgaard	Philosophical approaches to emotion and illness
Barbara Livett	Brain electrical activity during the processing of native and later learned languages
Claude Lobo	Development of biodegradable scaffolds for tissue engineering applications
Sarah Loughran	The effects of electromagnetic fields emitted by mobile phones on human sleep and melatonin production
Diane Mainwaring	Problem solving in the mathematically gifted: A neurophysical approach
Susan Malta	Social connectedness, health and ageing
Mathew Marques	Perceptions of intellectuals: Attitude and personality explanations
Craig (Peter) McIntosh	Crisis management: The rise of neo-Liberalism in regional governments in Australia and Canada
Sarah McLean	Investigation of culturally-diverse ready to eat foods
Jacqui McRae	The extraction and analysis of pharmaceutical compounds from plants
Ian McShane	Building communities: managing public assets to provide social value
Glen Menezes	Ethical issues for psychological practice in a large organisation
Mona Merhej	An investigation of humanitarian aid workers' areas of growth and trauma
Natalie Michael	Assessing countermeasures to drowsiness and their effectiveness during the night.
Peter Milne	Brief Shining Moments - Gough Whitlam's Career as Allegory
Zissis (Jack) Minas	The effects of Diabetes Mellitus on cardiovascular disease of Athero sclerosis
Natasa Mitik Dineva	Bacterial cell behaviour in micro/nano confined environment
Radu Mocanasu	Bioactive and biomimetic surfaces
Elizabeth Nelson	Investigating the relationship between salivary and faecal cortisol activity on the bacterial flora activity: a possible mechanism underlying gastrointestinal well-being
Shee Ping Ng	Genetic systems encoding heavy metal resistance and/or transport in bacteria and their applications in environmental biotechnology
Arletta Nikitiuk	Nutritional intervention for women at risk for development of cervical dysplasia
Gabriel Notarianni	Personality factors of depressed patients in the primary care sector: predictors of adherence to treatment, severity treatment responsiveness and clinical outcomes
Barry O'Neill	Pharmacology of loudness dependence of auditory evoked potentials

Miroslav Orel	Culture as a process: Towards the establishment of discipline of Culturology in Australia
Rosemary Panelli	Psychosocial outcomes of interventions relating to individuals with epilepsy
Sharnel Perera	Emotional processing and the effects of TMS
Robbie Peters	Lower class urban culture and space in Suralaya, Indonesia
Svetla Petkova	Investigations of portal vein blood flow in cirrhotic portal hypertension using computer-based and physical modelling methods
Trieu Pham	EOG correction of ocular artifact in EEG
Paul Pickering	Identification and evaluation of genetic factors determining grain texture in important Australian wheat varieties
Catherine Pocknee	Achieving strategic education change: The university experience
David Prater	Self-publishing in the field of Australian literature
Georgia Prattis	Professional induction of female and male firefighters in a metropolitan station
Chieh Ren Quek	Analysis of the physiochemical and genetic characteristics of epitopes of rotavirus NSP2 non-structural proteins
Claire Rafferty	Modernity and aesthetics: the philosophy of art after Kant
Martin Ramsay	The fiction of Banana Yoshimoto and its place in contemporary Japanese society
Jennifer Rankin	Cultural sustainability: investigating complexity, process, and the thermodynamics of civilization
Maren Rawlings	Use of humour in the workplace and its effect on well-being and job satisfaction
Meredith Rayner	Resilience And vulnerability in siblings of children with chronic illness or disability
Joseph Sampson	Moving boundary solutions of the shallow water wave equations
Shaun Seixas	Spatial coordinate systems within the posterior parietal cortex: The interaction between extracted cell types and various modified and unmodified polymer scaffolds
Kiran Shah	Molecular epidemiology of Rotaviruses isolated from hospitalised children in Melbourne, Australia
Andrew Smairl	Investigations of the micellar electrokinetic chromatographic separations of complex mixtures of antibiotic drugs
Wendy Stone	Down shifting and housing: How changing consumption patterns relate to housing in contemporary Australia
John Stone	Political and social factors in the decline of mass transit: an investigation of failed policies to rebuild Melbourne's mass transit
David Stuart	The nation, consumption and globalisation: The case of Thailand
Lisa Tatai	Evaluation of NovoSorb biodegradable polyurethanes: Understanding degradation characteristics
Danielle Tilmanis	Examination of the growth and therapeutic properties of Agaricus blazei
Effi Tomaras	Childhood and children's participation rights under international law: Deconstructing cultural relativism and re-constructing the political?
Steven Tomlinson	Risk assessment of pathogens in drinking water
