

INDUSTRY STUDY TOURS

Industry study tours are designed to give you experience that will benefit your career.

You will have the opportunity to increase your cultural awareness and gain an insight into practices in the developing world; working alongside local staff providing basic education to children and providing education and vocational training to young women.

The tours give you credit towards your degree and offer a unique opportunity to enrich your learning.

Coming on an industry study tour will allow you to:

- Develop a broad range of work skills and attributes that are particularly valuable in a globalised economy.
- Understand international professional practice in your discipline.
- Challenge your values, perceptions and assumptions.
- Gain an insight into another culture.

By undertaking this volunteer placement you will be eligible to apply for one of the Awards under the [Swinburne Emerging Leader Program](#).

Details

When: Enrol for Summer Term, 2016

Travel periods:

- Samoa 8 - 23 December 2015
- India 3 - 22 January 2016
- Philippines 10 - 31 January 2016
