

The Swinburne Advantage. We turn 'knowing' into know-how.

We believe an undergraduate education must be about more than knowledge. In today's competitive job market, it must be about true job readiness. That's why for over 50 years, Swinburne has been partnering with leading Australian and global organisations to offer students authentic workplace experiences that provide a chance to work on real industry projects, solve day-to-day challenges in the field, and gain the professional skills that put knowledge into practice. It's what we call The Swinburne Advantage.

The Swinburne Advantage is available to all new domestic and international undergraduates from 2016.

New simplified bachelor degree structure in 2016.

Our degree structure has been simplified – first-year units have been streamlined and Work Integrated Learning options have been embedded into all undergraduate courses.

- There are nine new professional degrees, all of which include a 12 month mandatory Professional Placement with a Swinburne industry partner.
- The on-campus Bachelor of Social Science has been mapped to the Bachelor of Arts.
- Students may choose to have eligible completed majors listed on their testamur.
- Diploma and certificate courses are unchanged.

Contact Swinburne for further information.
