High Achievers Program

At Swinburne we understand that high-performing students need opportunity to develop and excel in their field of interest.

This is why we created the Swinburne High Achievers Program. The program recognises students who demonstrate exceptional potential to benefit from access to research and industry projects.

Students who receive one of the following scholarships will have the opportunity to be part of the High Achievers Program:

- Vice-Chancellor's Excellence Scholarship (see page 5)
- Dean's Outstanding Achievement Scholarship (see page 7)

More than just a scholarship, the High Achievers Program offers a university experience unlike any other. Being part of this program means having access to the following:

- a guaranteed place in a study tour related to your degree
- a research group or project, or industry program, from the first year of your degree
- mentoring from senior research students
- like-minded peers to share insights and networking opportunities.

You will also become part of Swinburne's Student Ambassador Program, representing Swinburne at key events.
