## The light is on but no-one is home! Are you sustainable?

*Are you wondering what you can do to live more sustainably?*

*Are you unsure of where to begin or what more you can do at home and in the workplace? Come along and be empowered...*

*"I believe that individuals can make a difference in society. Since periods of change such as the present one come so rarely in human history, it is up to each of us to make the best use of our time to help create a happier world".*

The Dalai Lama, 1992

Swinburne Alumni Association in conjunction with the National Centre for Sustainability at Swinburne invite you to an informative and engaging forum to answer your questions about sustainable living.
