# WORLD-CLASS, WORLD-RANKED

Enhance your career opportunities, benefit from valuable industry connections and enjoy flexible learning options with a postgraduate program at Swinburne.

## World-ranked university

Swinburne is an internationally recognised research-intensive university. In 2017, we were ranked 61 in the world in the Times Higher Education Young University Rankings. This proves the success of our focus on and investment in high-quality teaching and research. It is why we are leaders in science, technology, innovation, business and design.

## Quality teaching

With a reputation for quality education and focused research, Swinburne attracts highly qualified academics and educational leaders who have industry experience in the areas they teach.

## Valued graduates

Swinburne is known for its links with successful business and industry, and for developing international partnerships and collaborations. Our graduates have gone on to secure employment at some of the world's best companies, including IBM, PricewaterhouseCoopers, Siemens, National Australian Bank, Mercedes-Benz and more.

## Research excellence

Swinburne has an international reputation for research that connects science and technology with business and the community. Our research has produced numerous innovative breakthroughs such as the discovery of a 'galactic freak', an extremely rare ultra-compact dwarf galaxy that could furnish the missing link in understanding how galaxies and their clusters evolve; the invention of an inspection system based on artificial intelligence that detects internal flaws in composite materials in aircraft; and more.

## Modern and safe campus

Our main campus at Hawthorn is a vibrant community in a top inner-urban location. We offer a supportive, secure and peaceful environment with modern facilities. Our Advanced Manufacturing and Design Centre is a symbol of the study opportunities, innovative thinking and dynamic campus life at Swinburne.

I look forward to seeing you at Swinburne.

# Your Swinburne JOURNEY

# OUR DEGREE structure

## Our degrees

### Coursework degrees

Swinburne has an international reputation for offering postgraduate programs with a career-focused curriculum. Our courses are taught by academics who are engaged with industry in the areas they teach. We offer courses designed to equip you with the skills and knowledge required to succeed in your chosen field.

### Double degrees

Double degrees are a great way to broaden your study experience and are highly respected by employers. They combine two areas of study and, on completion, you'll be awarded two degrees.

### Professional degrees

Professional degrees are designed to allow you to transition smoothly from the classroom to the workplace. They offer a unique opportunity to actively engage with an Australian industry client and receive personalised career coaching that is focused on enabling you to achieve your career goals. Students interested in making Australian industry contacts should consider these programs.

### Advanced degrees

Advanced degrees are designed to help you develop specialised knowledge and research skills. Students interested in exploring research techniques or pursuing a PhD or research career should consider these programs.

### Research degrees

Swinburne's research degrees allow you to plan, conduct and manage a substantial research project. As part of your course, you will engage in critical thinking and develop knowledge of ethical practice, intellectual property and commercialisation. Our research degrees give you access to specialist facilities, world-class researchers, training and support.

### Global Leadership Program

Swinburne's Global Leadership Program offers two postgraduate qualifications from two leading universities. Maximise your employment potential with a degree from Swinburne and a degree from Northeastern University in Boston, USA.

Visit [www.swinburne.edu.au/globalprograms](http://www.swinburne.edu.au/globalprograms)

## Degree examples

Following are some examples of how our master degrees may be structured.

### Sample degree structure: Master of Human Resource Management

Year 1	Semester 1	Core	Core	Core	Core
	Semester 2	Core	Core	Elective	Elective
Year 2	Semester 1	Core	Core	Elective	Elective
	Semester 2	Core	Core	Elective	Elective

### Sample degree structure: Master of Human Resource Management (Professional)

Year 1	Semester 1	Core	Core	Core	Core
	Semester 2	Core	Core	Elective	Elective
Year 2	Semester 1	Core	Core	Elective	Elective
	Semester 2	Core	Core	Industry Project	Industry Project

### Sample degree structure: Master of Human Resource Management (Advanced)

Year 1	Semester 1	Core	Core	Core	Core
	Semester 2	Core	Core	Elective	Elective
Year 2	Semester 1	Core	Core	Elective	Elective
	Semester 2	Research methodology	Research methodology	Research Project	Research Project

# Improving your **JOB PROSPECTS**

Swinburne offers a range of services and programs that extend beyond what you learn in the classroom to enhance your qualification and help prepare you for your career.

## Professional master degrees

Our professional master degrees were developed to help you transition smoothly from the classroom to the workforce. A key feature of these degrees is the opportunity to apply the knowledge and skills learned in the classroom to a project for an industry client. You may be able to undertake part of the project at an industry site.

Professional master degrees include the Career Success Program, which is delivered over two years, and provides individualised career planning, one-on-one career coaching sessions, and professional training designed to increase your employability and workplace communication, negotiation and conflict management skills.

The professional master degrees offer valuable access to industry contacts, which may enhance employability.

Career Success Program

Professional training workshop

## Careers and employment services

The Centre for Career Development has experienced careers counsellors who provide a range of free career services for current students and recent graduates. The centre offers services like:

- résumé-checking
- interview practice sessions
- on-campus employment fairs
- job workshops.

Visit [www.swinburne.edu.au/study/life/careers-employment](http://www.swinburne.edu.au/study/life/careers-employment)

### SwinEmploy

SwinEmploy is an online job database that advertises professional, part-time and casual jobs. Once registered, students receive regular emails about jobs relevant to their study areas.

Visit <https://swin.careerhub.com.au/students>

Student volunteers at Open Day

### Student Leadership and Volunteer Program

The Student Leadership and Volunteer Program provides you with opportunities to contribute to the Swinburne community through leadership and volunteering roles.

Volunteers develop practical experience and have opportunities to undertake training and obtain certifications in a number of fields.

Opportunities may include mentoring, events and activities hosted by the university or its faculties, or participation in academic panels and hearings.

Visit [www.swinburne.edu.au/student/leadership-volunteering/](http://www.swinburne.edu.au/student/leadership-volunteering/)

### Studying abroad

The cultural experience of international study offers you a personal growth opportunity: to develop insight, communication skills and a depth of understanding. There are several international study opportunities for postgraduate students, and your international study experience may be credited towards your course.

Visit [www.swinburne.edu.au/abroad](http://www.swinburne.edu.au/abroad)

Swinburne Abroad Expo

# Research EXCELLENCE

At Swinburne, we are dedicated to undertaking outstanding research that creates impact. Our research addresses issues that relate to modern societal challenges, regularly making deep intellectual contributions in fields that inspire and excite us.

As a trusted and respected leader in research excellence, we are determined to create real-world impact that transforms our global and local communities for the better.

Swinburne's research and development activities are concentrated on the following outcomes:

- **Inspirational science and technology:** focused on science and engineering to drive new discoveries and stimulate development of frontier technologies and materials.
- **Future manufacturing:** focused on high value-added manufacturing through the integration of advanced manufacturing systems, processes and materials, with design and information technologies to create new business opportunities globally.
- **Sustainable futures:** focused on addressing sustainability issues that confront our society and urban environments, informing public debate and influencing government policy
- **Digital innovation:** focused on digital technology and innovations that will change the way we work, communicate and socialise through advances in information and communication technologies, business innovation and design.
- **Personal and social wellbeing:** focused on improving health and wellbeing, tackling quality of life and social issues, and addressing the contemporary needs of diverse communities and individuals.

## Research centres

Swinburne has a number of designated research centres that bring together leading researchers and provide valuable opportunities for students. These are:

- Centre for Astrophysics and Supercomputing
- Centre for Design Innovation
- Centre for Forensic Behavioural Science
- Centre for Human Psychopharmacology
- Centre for Micro-Photonics
- Centre for Quantum and Optical Science
- Centre for Social Impact Swinburne
- Centre for Sustainable Infrastructure
- Centre for Transformative Innovation
- Centre for Urban Transitions
- Centre for Mental Health
- Swinburne Sarawak Research Centre for Sustainable Technologies.

## Research Institutes

Our research institutes foster interdisciplinary collaboration by linking faculties, research centres and researchers with industry, business and the community. These are:

- Manufacturing Futures Research Institute
- Data Science Research Institute
- Social Innovation Research Institute
- Iverson Health Innovation Research Institute
- Smart Cities Research Institute.

## Research achievements

Our research has produced numerous science, technology and innovation breakthroughs. To see our greatest achievements, visit [www.swinburne.edu.au/research/strengths-achievements/achievements-recognition](http://www.swinburne.edu.au/research/strengths-achievements/achievements-recognition)

## Higher degree by research programs

Swinburne offers three types of higher degree by research programs:

- Master by Research
- Doctor of Philosophy (PhD)
  - PhD by Thesis
  - PhD by Artefact and Exegesis
  - PhD by Including Associated Papers
  - PhD by Practice Based Research
  - PhD by Clinical Psychology
  - PhD by Technology Innovation
- Professional Doctorates.

## Integrated PhD program

The integrated PhD program combines structured coursework units in research methods and communication with self-directed research projects. It provides a pathway for students who hold a three-year bachelor degree into a higher degree by research.

Students in this program complete a Masters of Research, which incorporates a one-year Bachelor of Research (Honours) degree in the first year, before progressing on to the PhD.

## Partnered PhD program

Our Partnered PhD program allows approved students to complete their research degree jointly at Swinburne and at an international or Australian partner university. Students will be supervised by academics from Swinburne and academics from the partner university to undertake a single joint doctoral degree.

Visit [www.swinburne.edu.au/partnered-phd-program](http://www.swinburne.edu.au/partnered-phd-program)

## Offshore PhD program

Our offshore PhD programs allow students who are based predominantly offshore to enrol in a Swinburne PhD. Students will have access to the same supervisory support and research training opportunities as an onshore student, including the opportunity to spend some time in Australia as part of their program.

Visit [www.swinburne.edu.au/offshore-phd-program](http://www.swinburne.edu.au/offshore-phd-program)

## Scholarships

Swinburne offers many research scholarships each year to high-achieving students.

There are also a number of external scholarships available to research students.

Visit [www.swinburne.edu.au/research/funding-grants/scholarships/](http://www.swinburne.edu.au/research/funding-grants/scholarships/)

## How to apply

Follow these steps to apply for a Master by Research or PhD program at Swinburne:

- 1 Decide on a research topic
- 2 Check the entry requirements of your program
- 3 Find a supervisor
- 4 Complete the application form
- 5 Attach supporting documentation
- 6 Submit your application.

Visit [www.swinburne.edu.au/research/research-degrees/application-process](http://www.swinburne.edu.au/research/research-degrees/application-process)

Professor Baohua Jia and a team of researchers have created an ultrathin graphene oxide lens that can convert plane waves of light into a focal spot, capable of producing images with the quality and sharpness of much larger glass lenses.

**Professor Baohua Jia**  
Swinburne researcher

# English LANGUAGE COURSES

English Language Intensive Courses for Overseas Students (ELICOS) give you the opportunity to learn from qualified teachers, interact in English in a multicultural environment and prepare for entry to other Swinburne programs.

Courses range from elementary to advanced levels. A new intake commences every five weeks so you can start when it suits you.

Course duration is between five and 50 weeks. The length of your course will depend on your current level of English and whether you want to continue with further study.

## General English

### Elementary, Pre-intermediate, Intermediate, Upper-intermediate and Advanced

These courses prepare you to join our English for Academic Purposes (EAP) programs or can be taken as a way of improving your language skills for use in everyday situations. The broad aim of General English is to improve your overall English language skills in an Australian context. Through a range of activities, we will help you improve your writing, reading, listening, speaking and pronunciation, and grammar knowledge.

## English for Academic Purposes

### Intermediate, Upper-intermediate and Advanced

English for Academic Purposes (EAP) prepares you for direct entry to Swinburne University of Technology. The courses focus on academic language, critical thinking and academic literacy skills and aim to enhance your success in a higher education course.

Students develop skills in:

- assignment preparation
- academic reading, writing and note-making
- communication and interaction in the academic environment
- oral presentations and seminar discussions
- academic vocabulary development
- referencing sources
- research techniques
- communicating confidently in English
- independent study skills
- e-learning.

At the advanced levels, classes are separated into undergraduate and postgraduate and may be streamed according to your chosen discipline.

## English Placement Test

Our English Placement Test (EPT) is ideal for you if you do not have an IELTS or other approved international test score. You can sit this test free-of-charge at our Hawthorn campus or online at any Swinburne representative office.

The test measures all skills and will take approximately one hour to complete. Based on your results, we will recommend the number of weeks you will need to complete to enter into your chosen course.

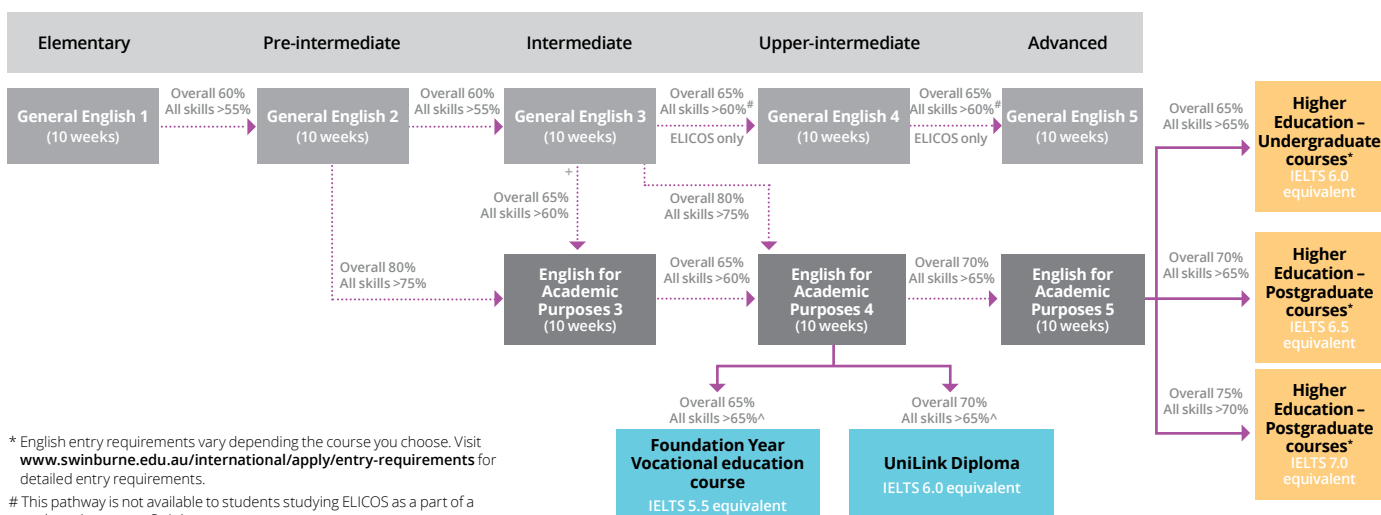

Swinburne reserves the right to conduct a placement test for all students in the first week of your study to assess your level of English. If your results show that you need more or fewer weeks than originally offered, this may affect the duration of your English course and, in turn, affect timely entry into your future courses.

## Direct entry to Swinburne

Students who successfully complete English for Academic Purposes to the required level can progress directly to their Swinburne course. Entry is subject to achieving the required results and all other conditions. English language requirements and other prerequisites for individual courses can vary.

Visit [www.swinburne.edu.au/study/international/apply/entry-requirements/](http://www.swinburne.edu.au/study/international/apply/entry-requirements/) to view English language requirements for different study levels.

## International Student Advisers

International Student Advisers at Swinburne are responsible for the orientation and support of all international students. They are your first point of contact when you arrive at Swinburne and provide ongoing support with health insurance, accommodation, visas, course information and referrals to other services both on and off campus.

Visit [www.swinburne.edu.au/student/international](http://www.swinburne.edu.au/student/international) to find out more about the services available.

## After-hours information hotline

Swinburne's after-hours hotline provides information to international students with medical, safety, environmental, mental health, accommodation, transport and other enquiries.

The service is available between 5pm and 9am on weekdays and is open 24 hours on weekends. The number is 1800 022 168.

## Facilities and services

In addition to scheduled lectures and tutorials, you'll need to spend time undertaking research and completing related readings and assignments. The on-campus library and computer labs provide resources and facilities for this but with wi-fi connectivity across the campus and hotspots in many cafés in the vicinity, your study experience doesn't have to be limited to the library.

You'll also have access to a variety of student services, including:

- careers and employment
- counselling
- health
- housing
- disability
- financial advice
- learning and study skills
- legal advice
- child care.

## Learning and Academic Skills Centre

Swinburne's Learning and Academic Skills Advisers can help you to study smarter and achieve better results. Develop your skills in:

- essay, report and thesis writing
- maths, statistics, physics and chemistry
- giving presentations
- researching and referencing
- making assignments look more professional
- preparing for exams.

You can attend free workshops and seminars, and make individual or group appointments with an adviser. A range of online resources is also available.

Visit [www.swinburne.edu.au/las](http://www.swinburne.edu.au/las)

## Tips to help you feel safe on campus at night

Throughout the semester, many students stick around campus later at night to study for exams and get those final group assignments done.

Here are some Swinburne services to keep you feeling safe:

### The Hawthorn night bus

The Hawthorn night bus can drop you wherever you request, within the boundaries of Riversdale Road, Auburn Road, Barkers Road and Power Street.

### Security officers

Swinburne Security are more than happy to provide you with a security guard to walk with you anywhere on or around campus. Security guards can be spotted patrolling the university day and night in their high-vis vests. They have a manned control room on the Hawthorn Campus, staffed 24 hours a day, seven days a week.

### Safe@Swin app

Safe@Swin is the official app of Swinburne's Safer Community Program and can be downloaded through the App Store or Google Play. The app allows students and staff to access contact details for campus security guards, student support services, information on reporting emergencies and safety issues, personal safety tools and advice, and campus maps.

### PSOs

If you catch the train home from university at night, it's comforting to know that Glenferrie station is well lit and patrolled by protective service officers right up until the last train leaves.

*This is an edited extract of an article that originally appeared on Swinburne's blog, Knowing. The article was written by a Swinburne student completing a 12-month paid professional work placement in our Media and communication team.*

Check out more stories about life on campus at [knowing.swinburne.edu.au](https://knowing.swinburne.edu.au)

#Swinburne #Hawthorn #campus #safety

## Clubs and societies

Swinburne Student Life (SSL) coordinates clubs, societies and events at the university.

There is a variety of Swinburne clubs and societies covering every social, religious, sporting, regional, political and cultural interest you can think of. Participation in clubs and societies is also a great way to make new friends, enjoy a favourite hobby or sport and even add an extra edge to your résumé.

## Events and activities

The university has a full calendar of events and cultural activities – including trips to popular tourist destinations around Australia, free on-campus activities and regular social events – that allow you to enjoy a balance between study and life, be part of social activities and experience the sights of Australia.

## Sport and recreation

As a Swinburne student, you can swim for free or use the gym facilities and personal training services at discounted rates at the nearby Hawthorn Aquatic and Leisure Centre. The centre also offers group fitness classes and has a health clinic.

Additionally, there are a number of sports clubs at Swinburne that you can join. From Australian Rules Football and cricket to hiking and weightlifting, there's bound to be a sport that you enjoy.

# OUR campus

## About Melbourne

Smart, captivating, multicultural, unique, fun, individual and welcoming, Melbourne is the capital city of Victoria and home to four million people.

In 2016, Melbourne was again named the world's most liveable city by The Economist Intelligence Unit's Global Liveability Survey for the sixth consecutive year. It is also known as Australia's cultural, culinary and sporting capital.

Additionally, a mild climate, magnificent architecture, an extensive public transport network and beautiful parks and public spaces make living in Melbourne a great experience.

Swinburne's campus is located in Hawthorn, a trendy inner-city suburb of Melbourne.

## Hawthorn campus

**Student population:** 22,000

**Distance from Melbourne city centre:** 7km (10 minutes by train)

Just 10 minutes by train from the city centre, Swinburne is set directly on Glenferrie Road in the suburb of Hawthorn. This vibrant shopping hub includes laneways and arcades where you can get great coffee and find a quiet place to read. There is a diverse choice of restaurants and cafés plus dozens of shops and boutiques, and a bookshop. Two supermarkets and a number of international grocers mean you'll never have to go far for the essentials. You can also take a break from study to visit the Central Gardens, go to the gym at the Hawthorn Aquatic and Leisure Centre, or catch a flick at the local movie theatre, Lido Cinemas.

See more of our Hawthorn campus at [www.swinburne.edu.au/vr](http://www.swinburne.edu.au/vr)

## Multimillion-dollar facilities

Major refurbishments and new infrastructure are a feature at our Hawthorn campus. The development of new buildings, renovation of existing buildings and landscaping enhance the study environment and education experience we offer our students.

Cutting-edge facilities include:

- The \$100 million Advanced Manufacturing and Design Centre (AMDC), which provides an innovative teaching, learning and research environment for design, business, engineering and information technology students. The AMDC is also the home of the Swinburne Design Factory Melbourne, the first 'living lab' dedicated to design at an Australian university.
- The Advanced Technologies Centre, which features state-of-the-art laboratories and research and education facilities. It includes a 550-seat retractable lecture theatre, 40 high-tech learning spaces and the Smart Structures laboratory – the only one of its kind in Australia – for leading-edge research in structural engineering.
- The George Building, a multi-storey student services hub, which houses study areas, a faith/prayer room and a student games room.

The Advanced Manufacturing and Design Centre

The heart of Melbourne by night  
Insert: Our leafy campus

# LIVING IN Melbourne

## Living costs

Living costs will depend on the accommodation you choose and the lifestyle you lead so, as such, all costs in this section are indicative only.

Students who are living and studying in Melbourne will require approximately A\$23,000 to A\$30,000 per year for ongoing living costs (not including tuition fees or airfares). Add to this a budget of approximately A\$2300 to A\$5000 for the initial costs of establishing yourself in Melbourne, and approximately A\$1000 to A\$2000 if you need to purchase a computer.

Learn more at [www.swinburne.edu.au/international/living-expenses](http://www.swinburne.edu.au/international/living-expenses) for a detailed overview of living expenses.

The Australian Government requires prospective student visa applicants and any family members accompanying them to have access to minimum funds to meet living costs requirements.

Visit [www.border.gov.au/Trav/Stud](http://www.border.gov.au/Trav/Stud) for more information.

Flinders Street station

## Accommodation

There is a range of housing options available. Visit [www.swinburne.edu.au/study/life/accommodation](http://www.swinburne.edu.au/study/life/accommodation) for more details.

Work with award-winning academics who are leaders in their fields.

Ranked 'above world standard' in Language, Communication and Culture – Excellence in Research for Australia, 2015.

# Arts and Humanities

[swinburne.edu.au/arts](http://swinburne.edu.au/arts)

Swinburne attracts world-class minds to take part in projects that create positive change in the community and society at large. Our diverse research areas include:

- digital society
- family structures
- foreign policy
- human rights
- identity
- indigenous studies
- industrial relations
- political history
- the sociology of sport
- sustainable cities.

In a study carried out by Swinburne researchers, students who answered course-based quiz questions set by a mobile app also achieved higher academic grades than students who chose not to use the app. This research led to the creation of *Quitich*, a Swinburne-designed mobile learning app that was shortlisted as a finalist in the prestigious 2017 Australian Financial Review Higher Education Awards.

Research program	Duration	Intake	2018 indicative course fee*	Rankings, accreditation and industry engagement
<b>Master of Arts (Research)</b> Undertake supervised research in a related discipline of your choice. Develop a range of skills, including independent thinking, project management, data analysis and critical thinking as well as refined communication skills. <b>Research areas:</b> Cultural studies, human society, media and communication, philosophy, politics. <b>Entry requirements</b> <b>Master of Arts (Research):</b> A three-year degree with a minimum average of 65% in the final year units of study. Other relevant experience will also be taken into account in assessing applications.	2 years	All year round	A\$27,930 annual	
<b>Doctor of Philosophy (Humanities, Arts and Social Sciences)</b> Undertake supervised research with the aim of making a significant and original contribution to a discipline or profession. <b>Research areas:</b> Cultural studies, social sciences, humanities, psychology, politics, human society, philosophy, media and communication, statistics, digital society, sustainable cities. <b>Entry requirements</b> <b>Doctor of Philosophy (Humanities, Arts and Social Sciences):</b> Completion of at least four years (or equivalent) of tertiary education studies in a relevant discipline at a high level of achievement, and approved for the award of the degree(s) for which they studied. A high level of achievement is defined as the equivalent of a four-year Swinburne honours degree that includes a significant research component in the fourth year, leading to an honours degree class 1 (average grade 80–100) or class 2A (average grade 70–79) level.	4 years	All year round	A\$27,930 annual	
<b>INTEGRATED RESEARCH</b>				
<b>Doctor of Philosophy - Humanities, Arts and Social Sciences</b>	3 years	Feb, July	A\$27,930 annual	
<b>Master of Research - Humanities, Arts and Social Sciences</b>	1 year	Feb, July	A\$27,930 annual	
<b>Bachelor of Research (Honours) - Humanities, Arts and Social Sciences</b>	1 year	Feb, July	A\$24,800 annual	
This suite of research degrees is part of a combined set of programs that offer students a pathway into a higher degree by research. It is suitable for students who wish to pursue a career in research. Enhance your intellectual understanding of a chosen area of study, refine your communication skills and develop your ability to carry out independent research. Acquire a range of skills, including critical thinking, academic writing, project management, and data collation and analysis. <b>Research areas:</b> Cultural studies, social sciences, humanities, psychology, politics, human society, philosophy, media and communication, statistics, digital society, sustainable cities. <b>Entry requirements</b> <b>Doctor of Philosophy - Humanities, Arts and Social Sciences; Master of Research - Humanities, Arts and Social Sciences; Bachelor of Research (Honours) - Humanities, Arts and Social Sciences:</b> A weighted credit average in an undergraduate degree issued from a university approved by Swinburne. Applicants can only enter this suite of research degrees through the Bachelor of Research (Honours).				

\*The indicative course fees detailed in this publication relate to 2018 only. They are based on a standard study load per year. Note that fees are assessed according to a student's study load in each semester. Variation to study load will result in an adjustment to tuition fees. All fees are subject to annual review and may be adjusted.

Australia's first master degree in entrepreneurship and innovation, introduced in 1988.

Featured in 'Australia's 5 Best MBAs For Entrepreneurs', *MBA News*, 2016.

Swinburne's Australian Graduate School of Entrepreneurship (AGSE) is Australia's first dedicated entrepreneurship school. Our graduates drive social change, deliver industry leading research and innovation and run multinational companies.

## Professional degrees

Our professional master degrees include the Career Success Program, delivered by a specialist career coaching and graduate placement management provider. The program focuses on career planning and employment readiness through a combination of employability activities and networking events.

Visit [www.swinburne.edu.au/professionalmasters](http://www.swinburne.edu.au/professionalmasters)

## Masters Qualifying Program

Students who do not meet the standard entry requirements for a postgraduate business program may be eligible to gain entry via the Masters Qualifying Program. The entry requirement for the Masters Qualifying Program is a recognised undergraduate degree from an offshore university which is considered inequivalent to an Australian degree.

This six-month program covers the fundamentals of business and prepares students for further study in this discipline.

Successful completion of the Masters Qualifying Program guarantees entry into a postgraduate business course in the areas of accounting, business administration, business information systems, entrepreneurship and innovation, finance and banking, human resource management, marketing, project management and social impact.

*My dream is to work in the Indian Ministry of External Affairs and assist in raising my country's profile and rebranding it as a strong leader in international affairs. When I heard that I could do a degree in leadership along with marketing, I immediately knew that this was the program that I wanted to do.*

## WHY SWINBURNE?

Programs for design and non-design graduates.

Member of the Adobe Partners by Design program.

Top 100 in the world for Art and Design by QS World University Rankings by Subject, 2017.

# Design

[swinburne.edu.au/design](http://swinburne.edu.au/design)

### Finding the right course

A design program could be right for you if you're interested in developing your skills in:

- design practice
- design research
- design strategy
- design management
- innovation processes
- sustainability in design.

### Swinburne Design Factory Melbourne

Swinburne Design Factory Melbourne is the first 'living lab' dedicated to design in Australia. It is part of the Design Factory Global Network – an international collective of universities offering innovative education, research and partnerships.

Student teams work in a professional setting to solve problems or improve products and services for business, government and not-for-profit organisations.

At Swinburne Design Factory Melbourne, students who aspire to a leading role in the global design business or in the area of design for social innovation have the freedom and resources to create solutions for contemporary needs, from idea generation and proof-of-concept to prototyping and testing.

Visit [www.swinburne.edu.au/designfactory](http://www.swinburne.edu.au/designfactory)

*I wanted to expand my knowledge and abilities in design to further my career, and this course is exactly what I was looking for. The course offers a combination of practical and theoretical training, allowing students to gain skills in a wide range of research and design areas.*

Master of Design

# Design

Coursework program	Duration	Intake	2018 indicative course fee*	Rankings, accreditation and industry engagement
DESIGN				
Master of Design	2 years	Feb, Jul	A\$29,520 annual	Students have the option to participate in study tours and projects with the Swinburne Design Factory Melbourne. Graduates may be eligible for membership of the Design Institute of Australia, Australian Graphic Design Association and Design Management Institute.
Graduate Diploma of Design	1 year	Feb, Jul	A\$29,520 total	
Graduate Certificate of Design	6 months	Feb, Jul	A\$14,760 total	
Enhance your expertise within a chosen design field, including visual communication design, industrial design, interior architecture and digital media design. Broaden your skills and knowledge in design practice, 3D printing, interaction design, design management, computer-aided design and visualisation tools. Work in a project-based studio environment.				
<b>Topics covered:</b> Design strategy, design research, digital design, entrepreneurship.				
<b>Entry requirements</b>				
<b>Master of Design; Graduate Diploma of Design:</b> A recognised bachelor degree in design or equivalent; a related qualification plus relevant work experience and presentation of a portfolio; or successful completion of the Graduate Certificate of Design.				
<b>Graduate Certificate of Design:</b> A recognised bachelor degree in design or equivalent; or a related qualification plus relevant work experience and presentation of a portfolio.				
DESIGN STRATEGY AND INNOVATION				
Master of Design Strategy and Innovation	1.5 years	Feb	A\$29,520 annual	Students have the option to participate in study tours and projects with the Swinburne Design Factory Melbourne. Graduates may be eligible for membership of the Design Institute of Australia, Australian Graphic Design Association and Design Management Institute.
Graduate Diploma of Design Strategy and Innovation	1 year	Feb	A\$29,520 total	
Graduate Certificate of Design Strategy and Innovation	6 months	Feb	A\$14,760 total	
Combine studies in design thinking, design management and strategy, systems and complexity thinking, innovation processes, futures forecasting, leadership and advanced sustainability practice. Learn how to create, lead and manage new products, systems and services that have a sustainable impact on the economy, society and environment.				
<b>Topics covered:</b> Design strategy, design management, sustainability in design.				
<b>Entry requirements</b>				
<b>Master of Design Strategy and Innovation; Graduate Diploma of Design Strategy and Innovation:</b> A recognised bachelor degree in design or related fields or successful completion of the Graduate Certificate of Design Strategy and Innovation.				
<b>Graduate Certificate of Design Strategy and Innovation:</b> A recognised bachelor degree.

## Finding the right course

An engineering course could be right for you if you're interested in developing your skills in:

- building design
- engineering project management
- infrastructure modelling
- operations
- manufacturing processes
- risk management
- sustainability.

The Master of Professional Engineering includes the Career Success Program, delivered by a specialist career coaching and graduate placement management provider. The program focuses on career planning and employment readiness through a combination of employability activities and networking events.

Visit [www.swin.edu.au/professionalmasters](http://www.swin.edu.au/professionalmasters) to learn more about the experiences of some of our professional masters students.

*I decided to pursue the joint PhD at Swinburne because of its international reputation as a research-intensive university. Not only did Swinburne have all the equipment that I required for my research but I learned that my supervisor here was also working on a similar project, a perfect opportunity for knowledge sharing!*

Nithin

Civil engineering PhD candidate

Coursework program	Duration	Intake	2018 indicative course fee*	Rankings, accreditation and industry engagement
ADVANCED MANUFACTURING TECHNOLOGY				
Master of Engineering Science (Advanced Manufacturing Technology)	2 years	Feb, Jul	A\$34,010 annual	
Master of Engineering (Advanced Manufacturing Technology)	1.5 years	Feb, Jul	A\$34,010 annual	
Graduate Diploma of Engineering (Advanced Manufacturing Technology)	1 year	Feb, Jul	A\$34,010 total	
Graduate Certificate of Engineering (Advanced Manufacturing Technology)	6 months	Feb, Jul	A\$17,005 total	
Gain an understanding of advanced and emerging manufacturing technologies. Learn the skills needed to direct the design, development and implementation of specific technologies and/or processes in modern global and local industries.				
Topics covered: Manufacturing processes, sustainability, management, mechatronics and nanofabrication.				
Entry requirements				
Master of Engineering Science (Advanced Manufacturing Technology); Master of Engineering (Advanced Manufacturing Technology): A recognised bachelor degree or honours-year degree in mechanical engineering, manufacturing, electrical and electronic engineering or robotics and/or automation; a recognised graduate certificate or graduate diploma in engineering in the same cognate fields; or equivalent.				
Graduate Diploma of Engineering (Advanced Manufacturing Technology): A recognised bachelor degree or honours-year degree in mechanical engineering, manufacturing, electrical and electronic engineering, or robotics and/or automation; a graduate certificate in engineering in the same cognate fields; or equivalent.				
Graduate Certificate of Engineering (Advanced Manufacturing Technology): A recognised bachelor degree or honours-year degree in mechanical engineering, manufacturing, electrical and electronic engineering, or robotics and/or automation; a recognised bachelor degree in another discipline plus at least three years of relevant work experience; or equivalent.				
Master of Engineering (Advanced Manufacturing Technology)/Master of Entrepreneurship and Innovation	2 years	Feb, Jul	A\$34,010 annual	
Gain an understanding of advanced and emerging manufacturing technologies. Learn the skills needed to direct the design, development and implementation of specific technologies and/or processes in modern global and local industries. Gain an understanding of the hurdles, opportunities and fundamental requirements that must be in place in order to realise your vision for a new or renewed organisation.				
Topics covered: Manufacturing processes, sustainability, management, entrepreneurship and innovation across a range of settings.				
Entry requirements				
Master of Engineering (Advanced Manufacturing Technology)/Master of Entrepreneurship and Innovation: A recognised bachelor degree or honours-year degree in mechanical engineering, manufacturing, electrical and electronic engineering or robotics and/or automation; a recognised graduate certificate or graduate diploma in engineering in the same cognate fields; or equivalent.				
CIVIL ENGINEERING				
Master of Engineering Science (Civil)	2 years	Feb, Jul	A\$34,010 annual	Top 75 in the world for Civil Engineering – ShanghaiRanking's Global Ranking of Academic Subjects, 2016.  'Above world standard' – Civil Engineering, Excellence in Research for Australia, 2015.
Master of Engineering (Civil)	1.5 years	Feb, Jul	A\$34,010 annual	
Graduate Diploma of Engineering (Civil)	1 year	Feb, Jul	A\$34,010 total	
Graduate Certificate of Engineering (Civil)	6 months	Feb, Jul	A\$17,005 total	
Gain advanced theoretical and practical knowledge about the design, procurement and asset management aspects of civil infrastructure projects. Develop a comprehensive understanding of the issues and challenges associated with the civil engineering industry, including codes of practice; sustainability issues; environmental impacts; and financial, legal, project-management and risk considerations.				
Topics covered: Planning and management, sustainability, project management.				
Entry requirements				
Master of Engineering Science (Civil); Master of Engineering (Civil): A recognised bachelor degree, honours-year degree, graduate certificate or graduate diploma in civil engineering; or equivalent.				
Graduate Diploma of Engineering (Civil): A recognised bachelor degree, honours-year degree or graduate certificate in civil engineering; or equivalent.				
Graduate Certificate of Engineering (Civil): A recognised bachelor degree in civil engineering; a recognised bachelor degree and at least three years of relevant industry experience; or equivalent.

ELECTRICAL AND ELECTRONIC ENGINEERING					
Master of Engineering Science (Electrical and Electronic)	2 years	Feb, Jul	A\$34,010 annual	'Above world standard' – Electrical and Electronic Engineering, Excellence in Research for Australia, 2015.	
Master of Engineering (Electrical and Electronic)	1.5 years	Feb, Jul	A\$34,010 annual		
Graduate Diploma of Engineering (Electrical and Electronic)	1 year	Feb, Jul	A\$34,010 total		
Graduate Certificate in Engineering (Electrical and Electronic)	6 months	Feb	A\$17,005 total		
Study four major areas of electrical and electronic engineering: power systems design, safety and control; signal processing; microelectronics; and control systems. Develop entrepreneurial thinking to foster innovation in your business, workplace or community.					
Topics covered: Power systems design and analysis, problem solving, planning and management.					
Entry requirements					
Master of Engineering Science (Electrical and Electronic); Master of Engineering (Electrical and Electronic): A recognised bachelor or honours-year degree in electronic engineering, computer engineering or communication/telecommunication engineering; a recognised honours-year degree in science in a related cognate field; a graduate certificate or diploma in related cognate fields; or equivalent.					
Graduate Diploma of Engineering (Electrical and Electronic): A recognised bachelor or honours-year degree in electronic engineering, computer engineering or communication/telecommunication engineering; a recognised honours-year degree in science in a related cognate field; a graduate certificate in engineering in a related cognate field; or equivalent.					
Graduate Certificate in Engineering (Electrical and Electronic): A recognised bachelor or honours-year degree in electronic engineering, computer engineering or communication/telecommunication engineering; a recognised honours-year degree in science in a related cognate field; a recognised bachelor degree and at least three years of relevant industry experience; or equivalent.					
Master of Engineering (Electrical and Electronic)/ Master of Entrepreneurship and Innovation	2 years	Feb, Jul	A\$34,010 annual	'Above world standard' – Electrical and Electronic Engineering, Excellence in Research for Australia, 2015.

------------------	----------	--------	-----------------------------	---

<b>Master of Engineering (Research)</b>	2 years	All year round	A\$35,500 annual	
---	---------	----------------	------------------	--

Undertake supervised research in a related discipline of your choice. Develop a range of skills, including independent thinking, project management, data analysis and critical thinking as well as refined communication skills.

**Research areas:** Biomedical engineering, civil engineering, electrical and electronic engineering, maritime engineering, materials engineering, mechanical engineering, industrial engineering.

### Entry requirements

**Master of Engineering (Research):** A three-year degree with a minimum average of 65% in the final year units of study. Other relevant experience will also be taken into account in assessing applications.

<b>Doctor of Philosophy (Engineering)</b>	4 years	All year round	A\$35,500 annual	
---	---------	----------------	------------------	--

Undertake supervised research with the aim of making a significant and original contribution to a discipline or profession.

**Research areas:** Mechanical and industrial engineering, civil engineering, electrical and electronic engineering, biomedical engineering, materials engineering, maritime engineering, communication technology.

### Entry requirements

**Doctor of Philosophy (Engineering):** Completion of at least four years (or equivalent) of tertiary education studies in a relevant discipline at a high level of achievement, and approved for the award of the degree(s) for which they studied. A high level of achievement is defined as the equivalent of a four-year Swinburne honours degree that includes a significant research component in the fourth year, leading to an honours degree class 1 (average grade 80–100) or class 2A (average grade 70–79) level.

\*The indicative course fees detailed in this publication relate to 2018 only. They are based on a standard study load per year. Note that fees are assessed according to a student's study load in each semester. Variation to study load will result in an adjustment to tuition fees. All fees are subject to annual review and may be adjusted.

## WHY SWINBURNE?

Access the MRI and MEG – the only university in Australia with these machines on campus.

The Master of Occupational Therapy is approved by the Occupational Therapy Board of Australia and accredited with conditions by the Occupational Therapy Council (Australia & New Zealand) Ltd.

Learn to develop innovative solutions to real cases provided by health service partners.

# Health

[swinburne.edu.au/health](http://swinburne.edu.au/health)

### Solving health problems through design

Master of Occupational Therapy students participate in an innovative year-long project with Swinburne Design Factory Melbourne. Students have the opportunity to use design and technology to develop solutions to help people with disabilities participate in everyday activities.

### Leading the way in health innovation

For many years, Swinburne has partnered with industry to develop high-impact health innovations and research outcomes, including:

- collaborating with the Royal Children's Hospital to develop software for NAO robots working in paediatric rehabilitation, helping children stay engaged with their rehabilitation
- joining forces with start-up Bondi Labs, which specialises in using digital technology to address global health challenges
- opening the first 'living lab' in Australia with a focus on ageing, health and design, which has received official acceptance into the European Network of Living Labs
- developing an Australian-first device that can measure changes in brain activity as anaesthesia is delivered to a patient, which has been certified by the Therapeutic Goods Administration.

Work placement opportunities in community and hospital settings.

<b>OCCUPATIONAL THERAPY</b>				
<b>Master of Occupational Therapy</b> Gain skills and knowledge in treating clients who may have neurological, musculoskeletal or mental health issues. Undertake problem-based learning: a case scenario is presented that allows for self-directed learning in teams. <b>Topics covered:</b> Intervention for individuals or groups of children who are experiencing occupational performance challenges as a result of a musculoskeletal, neurological or mental health conditions.	2 years	Jul	A\$31,690 annual	Complete three work placements in community- or hospital-focused agencies that offer short- and long-term therapy. Complete a project-based unit in the Swinburne Design Factory Melbourne and gain industry experience by developing innovative solutions to problems provided by disability service partners.
<b>Entry requirements</b>				
<b>Master of Occupational Therapy:</b>				
<ul style="list-style-type: none"> <li>• A recognised bachelor degree completed in the last 10 years, or a recognised bachelor degree with subsequent postgraduate studies or relevant work experience</li> <li>• A minimum 65 per cent GPA obtained in the last year of study</li> <li>• Academic transcript</li> <li>• Personal statement outlining the reason for applying</li> <li>• Curriculum vitae</li> <li>• One-page report on knowledge of work of occupational therapists (sources to be correctly referenced using APA 6th style)</li> <li>• One-page report on problem based learning approaches in higher education (sources to be correctly referenced using APA 6th style).</li> </ul>				
Research program	Duration	Intake	2018 indicative course fee*	Rankings, accreditation and industry engagement
<b>Master of Health Sciences (Research)</b> Undertake supervised research in a related discipline of your choice. Develop a range of skills, including independent thinking, project management, data analysis and critical thinking as well as refined communication skills. <b>Research areas:</b> Human welfare studies and services, statistics, psychology public health.	2 years	All year round	A\$34,350 annual	
<b>Entry requirements</b>				
<b>Master of Health Sciences (Research):</b> A three-year degree with a minimum average of 65% in the final year units of study. Other relevant experience will also be taken into account in assessing applications.				
<b>Doctor of Philosophy (Health Sciences)</b> Undertake supervised research with the aim of making a significant and original contribution to a discipline or profession. <b>Research areas:</b> Public health, psychology, human welfare studies and services, mental health and wellbeing.	4 years	All year round	A\$34,350 annual	
<b>Entry requirements</b>				
<b>Doctor of Philosophy (Health Sciences):</b> Completion of at least four years (or equivalent) of tertiary education studies in a relevant discipline at a high level of achievement, and approved for the award of the degree(s) for which they studied. A high level of achievement is defined as the equivalent of a four-year Swinburne honours degree that includes a significant research component in the fourth year, leading to an honours degree class 1 (average grade 80–100) or class 2A (average grade 70–79) level.				
<b>INTEGRATED RESEARCH</b>				
<b>Doctor of Philosophy - Health Sciences</b>	3 years	Feb, July	A\$34,350 annual	
<b>Master of Research - Health Sciences</b>	1 year	Feb, July	A\$34,350 annual	
<b>Bachelor of Research (Honours) - Health Sciences</b>	1 year	Feb, July	A\$28,890 annual	
This suite of research degrees is part of a combined set of programs that offer students a pathway into a higher degree by research. It is suitable for students who wish to pursue a career in research. Enhance your intellectual understanding of a chosen area of study, refine your communication skills and develop your ability to carry out independent research. Acquire a range of skills, including critical thinking, academic writing, project management, and data collation and analysis. <b>Research areas:</b> Public health, psychology, human welfare studies and services, mental health and wellbeing.				
<b>Entry requirements</b>				
<b>Doctor of Philosophy - Design; Master of Research - Design; Bachelor of Research (Honours) - Design:</b> A weighted credit average in an undergraduate degree issued from a university approved by Swinburne. Applicants can only enter this suite of research degrees through the Bachelor of Research (Honours).				

\*The indicative course fees detailed in this publication relate to 2018 only. They are based on a standard study load per year. Note that fees are assessed according to a student's study load in each semester. Variation to study load will result in an adjustment to tuition fees. All fees are subject to annual review and may be adjusted.

World-ranked for Computer Science by the QS World University Rankings by Subject, 2016.

Access to three cutting-edge Cisco networking labs.

Programs for IT and non-IT graduates.

# Information Technology

[swinburne.edu.au/it](http://swinburne.edu.au/it)

## Finding the right course

An information technology course could be right for you if you're interested in developing your skills in:

- business information systems
- data collection and analysis
- digital security
- IT project management
- network design and management
- programming and applications
- software development
- wireless and mobile networks.

## Professional recognition

Our IT degrees are professionally accredited by the Australian Computer Society.

Accredited Program

*I recently completed a three-month internship at the Melbourne office of a leading provider of IT services to educational institutions. This internship was extremely rewarding because it not only enabled me to apply the knowledge that I had gained from my course but it also boosted my confidence in a professional setting. It was a valuable learning experience that has already helped me to land a job in my chosen field.*

BUSINESS INFORMATION SYSTEMS				
Master of Business Information Systems	2 years	Feb, Jul	A\$29,500 annual	
Graduate Diploma of Business Information Systems	1.5 years	Feb, Jul	A\$29,500 annual	
Graduate Certificate of Business Information Systems	1 year	Feb, Jul	A\$29,500 total	
Gain an understanding of the use and management of information systems in organisations. Learn about the underpinnings of information systems and how to approach organisational problems from a broader, interdisciplinary perspective.				
<b>Topics covered:</b> Business analysis, IT project management and enterprise information management, requirements analysis, database design and professional issues.				
<b>Pathway option</b>				
Masters Qualifying Program	6 months	Feb, Jul	A\$12,140 total	
<b>Entry requirements</b>				
<b>Master of Business Information Systems:</b> A recognised bachelor degree, or successful completion of a graduate certificate or graduate diploma in information systems or information technology. Applicants who do not hold an appropriate qualification but have at least five years' relevant work experience and evidence of academic capability are also encouraged to apply.				
<b>Graduate Diploma of Business Information Systems:</b> A recognised bachelor degree or successful completion of a graduate certificate in information systems or information technology. Applicants who do not hold an appropriate qualification but have at least five years' relevant work experience and evidence of academic capability are also encouraged to apply.				
<b>Graduate Certificate of Business Information Systems:</b> A recognised bachelor degree. Applicants who do not hold an appropriate qualification but have at least five years' relevant work experience and evidence of academic capability are also encouraged to apply.				
INFORMATION TECHNOLOGY				
Master of Information Technology	2 years	Feb, Jul	A\$32,000 annual	The Master of Information Technology program is professionally accredited by the Australian Computer Society.
Graduate Diploma of Information Technology	1.5 years	Feb, Jul	A\$32,000 annual	
Graduate Certificate of Information Technology	1 year	Feb, Jul	A\$32,000 total	
Gain the knowledge and skills required to design, develop and maintain complex systems using state-of-the-art technologies and methodologies. Develop advanced specialist skills in areas such as networks, software development, and information systems analysis and management. Apply your skills through industry-related project work, including industry-linked projects for real clients.				
<b>Topics covered:</b> Business information systems, working with data, programming and applications, project management.				
<b>Entry requirements</b>				
<b>Master of Information Technology:</b> A recognised bachelor degree, or completion of a graduate diploma or certificate in information technology.				
<b>Graduate Diploma of Information Technology:</b> A recognised bachelor degree that has few or no studies in information technology or completion of a graduate certificate in information technology.				
<b>Graduate Certificate of Information Technology:</b> A recognised bachelor degree including one in a discipline other than information technology.				

Coursework program	Duration	Intake	2018 indicative course fee*	Rankings, accreditation and industry engagement
DIGITAL BUSINESS MANAGEMENT				
Master of Digital Business Management (Professional)	2 years	Feb, Jul	A\$36,180 annual	<b>Industry project:</b> The Master of Digital Business Management (Professional) includes an industry-linked project. <b>Research:</b> The Master of Digital Business Management (Advanced) includes a specialised research project.
Master of Digital Business Management (Advanced)	2 years	Feb, Jul	A\$32,500 annual	
Master of Digital Business Management	1.5 year	Feb, Jul	A\$32,500 total	
Graduate Diploma of Digital Business Management	1 year	Feb, Jul	A\$32,500 total	
Graduate Certificate of Digital Business Management	6 months	Feb, Jul	A\$16,250 total	
Acquire a solid knowledge of contemporary information systems management with an understanding of emerging digital technologies, new business models, and new ways of organising, analysing and communicating information. Learn about the methodologies and approaches that are applied in businesses to develop new IT enabled services, plan digital business initiatives for organisations, and work with business intelligence technologies.				
Also see Master of Digital Business Management/Master of Business Administration (Executive) on page 27.				
<b>Topics covered:</b> Digital business risks, enterprise architecture, business analytics and visualisation, business information systems, project management.				
Pathway option				
Masters Qualifying Program (and at least three years of managerial work experience)	6 months	Feb, Jul	A\$12,140 total	
Entry requirements				
<b>Master of Digital Business Management (Professional); Master of Digital Business Management (Advanced); Master of Digital Business Management:</b> A recognised bachelor degree in business, information systems or information technology as well as a minimum of three years of relevant work experience, or successful completion of the Graduate Certificate of Digital Business Management or Graduate Diploma of Digital Business Management.				
NETWORKS				
Master of Engineering Science (Network Systems and Telecommunications)	2 years	Feb, Jul	A\$32,000 annual	These programs are professionally accredited by the Australian Computer Society.
Master of Science (Network Systems)	2 years	Feb, Jul	A\$24,000 annual	
Undertake advanced studies in telecommunication systems and the management of networks. Develop theoretical knowledge and practical skills related to network design, the management and service provision of private and public network systems, wireless and broadband technologies, and the security and protection of networked and computer systems.				
<b>Topics covered:</b> Network administration and programming, network design and management, wireless and mobile networks, digital security.				
Entry requirements				
<b>Master of Engineering Science (Network Systems and Telecommunications); Master of Science (Network Systems):</b> A recognised bachelor degree, honours degree, graduate certificate or graduate diploma in engineering, science or information technology; or equivalent.				
PROFESSIONAL COMPUTING				
Master of Information Technology (Professional Computing)	1.5 or 2 years	Feb, Jul	A\$24,000 annual	This program is professionally accredited by the Australian Computer Society.
Gain theoretical knowledge and practical skills related to the design, construction, operation, support and maintenance of information technology solutions. Learn state-of-the-art techniques used in the design and construction of IT solutions, as well as the research skills needed to assess the effectiveness of a solution or technology.				
<b>Topics covered:</b> Software development, information systems analysis and management, network management, project management.				
Entry requirements				
<b>Master of Information Technology (Professional Computing):</b> A recognised bachelor degree in information technology.				

# Information Technology

Research program	Duration	Intake	2018 indicative course fee*	Rankings, accreditation and industry engagement
<b>Master of Information and Communication Technologies (Research)</b> Undertake supervised research in a related discipline of your choice. Develop a range of skills, including independent thinking, project management, data analysis and critical thinking as well as refined communication skills. <b>Research areas:</b> Computer science or telecommunications.	2 years	All year round	A\$34,520 annual	
<b>Entry requirements</b> <b>Master of Information and Communication Technologies (Research):</b> A three-year degree with a minimum average of 65% in the final year units of study. Other relevant experience will also be taken into account in assessing applications.				
<b>Doctor of Philosophy (Information and Communication Technology)</b> Undertake supervised research with the aim of making a significant and original contribution to a discipline or profession. <b>Research areas:</b> Computer science or telecommunications.	4 years	All year round	A\$34,520 annual	
<b>Entry requirements</b> <b>Doctor of Philosophy (Information and Communication Technology):</b> Completion of at least four years (or equivalent) of tertiary education studies in a relevant discipline at a high level of achievement, and approved for the award of the degree(s) for which they studied. A high level of achievement is defined as the equivalent of a four-year Swinburne honours degree that includes a significant research component in the fourth year, leading to an honours degree class 1 (average grade 80–100) or class 2A (average grade 70–79) level.				
<b>Doctor of Philosophy (Information Systems)</b> Undertake supervised research with the aim of making a significant and original contribution to a discipline or profession. <b>Research areas:</b> Information systems.	4 years	All year round	A\$29,170 annual	
<b>Entry requirements</b> <b>Doctor of Philosophy (Information Systems):</b> Completion of at least four years (or equivalent) of tertiary education studies in a relevant discipline at a high level of achievement, and approved for the award of the degree(s) for which they studied. A high level of achievement is defined as the equivalent of a four-year Swinburne honours degree that includes a significant research component in the fourth year, leading to an honours degree class 1 (average grade 80–100) or class 2A (average grade 70–79) level.				
<b>INTEGRATED RESEARCH</b>				
<b>Doctor of Philosophy - Information and Communication Technology</b>	3 years	Feb, July	A\$34,520 annual	
<b>Master of Research - Information and Communication Technology</b>	1 year	Feb, July	A\$34,520 annual	
<b>Bachelor of Research (Honours) - Information and Communication Technology</b>	1 year	Feb, July	A\$28,380 annual	
This suite of research degrees is part of a combined set of programs that offer students a pathway into a higher degree by research. It is suitable for students who wish to pursue a career in research. Enhance your intellectual understanding of a chosen area of study, refine your communication skills and develop your ability to carry out independent research. Acquire a range of skills, including critical thinking, academic writing, project management, and data collation and analysis. <b>Research areas:</b> Computer science or telecommunications.				
<b>Entry requirements</b> <b>Doctor of Philosophy - Information and Communication Technology; Master of Research - Information and Communication Technology; Bachelor of Research (Honours) - Information and Communication Technology:</b> A weighted credit average in an undergraduate degree issued from a university approved by Swinburne. Applicants can only enter this suite of research degrees through the Bachelor of Research (Honours).				

\*The indicative course fees detailed in this publication relate to 2018 only. They are based on a standard study load per year. Note that fees are assessed according to a student's study load in each semester. Variation to study load will result in an adjustment to tuition fees. All fees are subject to annual review and may be adjusted.

## WHY SWINBURNE?

World-ranked for  
Communications and Media  
Studies by the QS World  
University Rankings by Subject,  
2016

Ranked 'above world standard'  
in Communications and Media  
Studies - Excellence in  
Research for Australia, 2015.

Renowned, industry-focused  
courses that take full  
advantage of our strong  
industry links.

# Media and Communication

[swinburne.edu.au/media](http://swinburne.edu.au/media)

Develop skills to lead a career in:

- interactive content creation
- journalism
- radio
- public relations
- communications research
- advertising
- digital media production.

Dr César Albarrán-Torres, lecturer in the Department of Media and Communication, was recently included in the anthology *22 voces: narrativa mexicana joven*, which showcases a selection of emerging literary voices from Mexico. His work was described by renowned novelist David Miklos as 'one of the finest short stories written recently'.

Swinburne Psychology Clinic is the largest university psychology clinic in Australia.

Home to a state-of-the-art neuroimaging facility.

Ranked 'above world standard' in Psychology – Excellence in Research for Australia, 2015.

# Psychology

[swinburne.edu.au/psychology](http://swinburne.edu.au/psychology)

## Your pathway to career success

Graduates of a Swinburne postgraduate psychology program are equipped to seek careers in clinical and forensic psychology in:

- research centres
- psychiatric hospital settings
- community mental health centres
- secondary and post-secondary education
- clinical rehabilitation services
- private practice.

## Swinburne Psychology Clinic

The Swinburne Psychology Clinic, the largest of its kind in Australia, allows students undertaking postgraduate studies in clinical psychology to gain valuable experience, training and clinical skills needed to work independently.

*The staff at Swinburne are friendly and approachable and the students feel like they're part of a community. The Hawthorn campus is so close to the city and has everything you'll need. I had an unforgettable experience playing Ultimate Frisbee at the University Games!*

# Science

[swinburne.edu.au/science](http://swinburne.edu.au/science)

## Research highlights

- Inspired by the intricate structure of a butterfly wing, Swinburne researchers have developed a technique that could be used to make more brilliant computer screens.
- A Swinburne study has found that a compound in turmeric can improve brain function.
- An international team of researchers led by Swinburne discovered that the veined wing of the clanger cicada kills bacteria solely through its physical structure – one of the first natural surfaces found to do so.

*I am researching the technique of elaborating cell signalling pathways while learning from the best in this field. The student services offered by Swinburne have helped me to adjust to study and life in Australia. Melbourne is a multicultural city with many cultural festivities and a friendly environment for international students.*

## COURSES OVERSEAS

### Study in Malaysia

Swinburne's Sarawak campus is located in Kuching, the capital city of Sarawak, East Malaysia. Courses offered at our Sarawak campus are almost identical to those offered at our Australian campuses.

Visit [www.swinburne.edu.my](http://www.swinburne.edu.my) for information about Sarawak courses, fees and entry requirements.

### Study with an international partner institution

Study a Swinburne qualification overseas at one of our international partner institutions

Visit [www.swinburne.edu.au/study/options/other-programs/offshore](http://www.swinburne.edu.au/study/options/other-programs/offshore) for more information.

### Study online in your home country

Swinburne offers a range of online courses that are available to international students studying outside Australia.

Indicative fees for our online courses are advertised against each course listing on our website.

Visit [www.swinburne.edu.au/indicative-fees](http://www.swinburne.edu.au/indicative-fees) to view the fees for your preferred online course.

# How to **APPLY**

Follow these steps carefully to ensure your application is processed properly.

Visit [www.swinburne.edu.au/study/international/apply](http://www.swinburne.edu.au/study/international/apply) for detailed application instructions.

If you need help with your application, email our application adviser at [international@swinburne.edu.au](mailto:international@swinburne.edu.au)

You can also speak with a registered Swinburne representative in your home country.

Visit [www.swinburne.edu.au/study/international/connect/representatives](http://www.swinburne.edu.au/study/international/connect/representatives) to search for a list of Swinburne representatives in your country.

To apply for a master by research or PhD program, see page 11.

---

# 1

## Choose the course that suits your interests and career goals

- See pages 22–55 for course descriptions.
- Collect any documents you may require to apply to receive credit for previous study and/or experience.
- Visit [www.swinburne.edu.au/study/options/find/start-dates](http://www.swinburne.edu.au/study/options/find/start-dates) to check start dates for intakes. If you are an offshore international student, you are strongly advised to consider applying at least three months in advance of your intake's start date.

---

# 2

## Complete the application form

- Visit [www.swinburne.edu.au/international/apply](http://www.swinburne.edu.au/international/apply) to download a copy of the application form.
- Read the application form carefully, complete all relevant fields and provide all of the required documents so we can assess your application.
- Complete the credit transfer section on the form if you wish to apply for credit.
- Sign the declaration.

---

# 3

## Attach additional required documents (if applicable) to your application form

These documents may include:

- certified academic transcripts with grading system
- English translations, where applicable
- certified English proficiency test results
- referee reports
- portfolio (for design programs, if required)
- course or unit syllabus if you are applying for exemptions (e.g. credit transfer or Recognition of Prior Learning)
- copy of passport (photo page and relevant visa page).

---

# 4

## Submit your application form and required documents

You can send your completed application form along with relevant documents to your registered Swinburne representative or send it directly to Swinburne at:

Swinburne International  
PO Box 218  
HAWTHORN VIC 3122  
AUSTRALIA  
Email: [international@swinburne.edu.au](mailto:international@swinburne.edu.au)

---

# 5

## Receive your offer via email

Swinburne will assess your application. If you are successful, you will receive a letter of offer via email.

The offer letter will indicate:

- |  |  |                               |
|--|--|-------------------------------|
| • the course you have been offered     | • the duration of the course                                 | • any conditions to the offer |

---

Visit [www.swinburne.edu.au/international/accept](http://www.swinburne.edu.au/international/accept) to find out how to accept your offer.

Note: If you receive a conditional offer, you will be required to meet the condition(s) outlined in your offer letter.

# Other INFORMATION

## Applying for credit transfer

### What is credit transfer?

Credit transfer is exemption from certain course requirements in recognition for previous study and/or experience. The term 'credit' is used interchangeably with 'Recognition of Prior Learning', 'advanced standing' and/or 'status' in Australian universities.

### How to apply for credit transfer

You can apply for credit transfer by submitting a course or unit (subject) syllabus or other evidence of your skills with your application. You must also indicate on your application form that you are applying for credit transfer.

If you are applying for credit transfer for a design course you may need to submit a portfolio.

If your application for credit transfer is successful, your letter of offer will state the updated course duration and the amount of credit for which you have been assessed. If you do not apply for credit transfer when you submit your application, you can do so within the first week of commencing your course. Applications for credit transfer made after this time may not be approved.

## Applying for your student visa

You will need to obtain an Overseas Student Confirmation of Enrolment (CoE) from Swinburne to complete your student visa application. Your CoE must accompany your visa application.

Visit [www.border.gov.au](http://www.border.gov.au) for more information.

## Overseas student health cover

All student visa holders must have overseas student health cover (OSHC) for the duration of their visa.

Swinburne will arrange your visa-length OSHC membership with our preferred provider. The OSHC fee will be included with your deposit indicated in your letter of offer.

Visa-length OSHC membership is a once-only payment that provides rate protection for the duration of the visa. This means that even if OSHC fees increase during the duration of your visa, you do not have to pay any increase.

If you need to extend your OSHC (for example, if you fail some units and need to extend your stay in Australia to complete your course), it is your responsibility to do this directly with the OSHC provider. Additional fees will be charged at the time of renewal.

Exceptions apply to Norwegian students insured under the Norwegian National Insurance Scheme (NIS) and Swedish students with health insurance provided by CSN International (the Swedish National Board of Student Aid). Please include evidence with your application if you are covered under one of these programs.

Visit [www.swinburne.edu.au/study/international/offer/overseas-student-health-cover](http://www.swinburne.edu.au/study/international/offer/overseas-student-health-cover)

If you prefer to arrange your own OSHC, please ensure you purchase cover for the duration of your student visa. You will need to provide us with proof of OSHC when you submit your acceptance form. Information about OSHC can be found online at [www.health.gov.au/internet/main/publishing.nsf/Content/Overseas+Student+Health+Cover+FAQ-1](http://www.health.gov.au/internet/main/publishing.nsf/Content/Overseas+Student+Health+Cover+FAQ-1)

## Students with families

If you plan to bring your family to Australia, check if any restrictions apply by contacting the Department of Immigration and Border Protection or the Australian diplomatic mission in your country. You will also need to hold OSHC membership for your family.

Visit [www.swinburne.edu.au/study/international/plan-arrival/family](http://www.swinburne.edu.au/study/international/plan-arrival/family)

### Children

If you have children between five and 15 years of age who you plan to bring to Australia, you must enrol them in school. Full fees are payable at both government and non-government schools.

If you will be enrolled as a postgraduate research student at Swinburne, the Victorian Government may provide exemption from tuition fees in Victorian government primary and secondary schools for your children.

Visit [www.education.vic.gov.au](http://www.education.vic.gov.au) to find a complete list of Victorian primary and secondary schools. Information about fees, applications and enrolment for government, primary and secondary schools may be found online at [www.study.vic.gov.au](http://www.study.vic.gov.au)

Applications to non-government schools must be made directly to the school of your choice.

Note: Your student visa assessment criteria may change if your family is accompanying you to Australia.

## Your rights and responsibilities

The Education Services for Overseas Students (ESOS) Act regulates the education and training sector's involvement with overseas students studying in Australia on student visas.

Visit [www.studyinaustralia.gov.au/global](http://www.studyinaustralia.gov.au/global) for more information.

Restrictions may apply if you wish to change your enrolment. Visit [www.swinburne.edu.au/how-to-enrol](http://www.swinburne.edu.au/how-to-enrol) for enrolment help and support.

Visit [www.swinburne.edu.au/international-refunds](http://www.swinburne.edu.au/international-refunds) to read Swinburne's refund provisions, which are outlined in the offer acceptance form.
