

SWINBURNE-CONOCOPHILLIPS SCIENCE EXPERIENCE

PARTICIPATE in hands-on workshops

EXPAND your scientific curiosity

WITNESS out-of-this-world demonstrations

INDULGE YOUR PASSION FOR SCIENCE

Students in Years 9 and 10 are invited to visit Swinburne's campuses and conduct experiments in our specialised labs. Explore the endless possibilities that science offers!

When: 11–13 July 2018

Time: 8.30am–4.00pm daily

Where: Based at Swinburne's Hawthorn campus – program comprises two days at Hawthorn and one day at our Wantirna campus (return bus transfers from Hawthorn included)

Cost: \$195 per student for three-day program

**What is space? What is time?
What is light? What is gravity?**

.....
Explore the science of our universe
by conducting experiments based
on Albert Einstein's scientific
theories and discoveries.
.....

Engineering probability

.....
Get hands-on soldering a circuit
to construct an electronic die
that you'll get to take home –
high probability it'll
be awesome!
