Quick guide to the library for ICT research students

Borrow from Swinburne libraries
You can borrow a maximum of 30 books for 28 days from any campus library. Renew your books online via the library website

Borrow from other libraries
You can register to borrow books in person from other Victorian libraries through our reciprocal borrowing program. For more information and an application form, see the website
You can request books, journal articles, conference papers and theses not available at Swinburne libraries via our Inter-Library Loans service

Request new books for purchase
Contact your Liaison Librarian, Kim Hodgman, to request new books to support your research.

Find journal articles and conference papers
Use the library databases to find journal articles and conference papers.

Relevant databases include ACM Digital Library, IEEE Xplore, Science Direct, Wiley InterScience, SpringerLink, Scopus and Web of Science

Search Google Scholar
Connect to Google Scholar from the library website and link through to Swinburne library subscriptions in your results.
See SFX in Google Scholar for off-campus set up.

Find Swinburne theses and research papers
Find research papers by ICT researchers at Swinburne Research Bank
Find full-text (complete) PhD theses from Swinburne and other Australian universities at the Australasian Digital Theses Program (ADT)
