## Bachelor of Computer Science - BA-CS Artificial Intelligence Major

### Recommended Sequence

Units are listed on your Course Planner in a recommended sequence. However, this can be amended depending on unit availability, pre-requisite requirements and the semester in which you commenced your course. Changes to this planner may extend the duration of your course.

In your final year, you have the option of completing an internship unit of 25cps - ICT20015 Internship (ICT) (pre-requisite 150cps). Please speak to your Course Coordinator/Academic Director to plan your course.

*Students should complete no more than 150 credit points (normally 12 units) at Introductory Level (i.e. ABC1XXXX)*
