Turn your passion for nutrition into a rewarding career

DURATION:

2 years full-time

CAMPUS:

Hawthorn

INTAKE:

Semester 1

swinburne.edu.au/master-dietetics

Studying a Master of Dietetics at Swinburne will empower you to make a positive impact on the health of Australians.

Develop skills in both traditional and emerging areas of dietetic practice, learn to work with a variety of evolving food and health management strategies

Units cover a range of topics, including entrepreneurship, leadership and business, sports and paediatric nutrition, nutrigenomics, research and evidence-based practice.

The course includes face-to-face lectures and tutorials, seminars, theoretical and practical coursework, kitchen workshops, online learning and professional placements.

SPECIALISED FACILITIES

Get access to new facilities and laboratories fitted with the latest equipment and technology. These include a state-of-the-art kitchen, a food science laboratory, sensory tasting stations, and consultation rooms featuring two-way mirrors and video systems. You will also gain experience with simulated patients prior to your professional placement.

OUTCOMES

You'll be ready to take on roles in a range of areas, including clinical practice, community and public health, corporate and digital health, aged care, private practice, food service management, food industry and sustainability, sport and research.

PROGRAM STRUCTURE

To qualify for the award of Master of Dietetics, you must complete 200 credit points comprising 11 theory units of study (150 credit points), and four professional placement units of study (50 credit points).

PROFESSIONAL PLACEMENTS

The Masters of Dietetics includes 105 days of placement. Placements consist of a five-day research placement in first year, followed by four five-week placements in final year. Eligibility for professional accreditation requires the successful completion of 100 days.

ENTRY REQUIREMENTS

You must have completed a three-year bachelor degree in a relevant area of study in the last 10 years and must have completed required prerequisite units; or have undertaken subsequent postgraduate studies; or have relevant work experience.*

Haven't completed the prerequisite units? You may be eligible to receive a conditional offer.
