Title: Put Swinburne to the Test - VTAC online and in-person events

This video has no spoken words. The words featured in this transcript animate on screen. The video is driven by a futuristic sounding, bass-heavy music track.

White text appears on a black screen:

Looking for your #VTAC preference?

As each Swinburne staff member or graduate is introduced, their name and title appear on screen - along with text that is delivered word by word to capture the line: Put Swinburne to the test.

A man aged in his late fifties of Indian appearance takes off a hard hat in Swinburne's Smart Structures Lab. There is lots of heavy machinery and concrete structures in the lab: this is Professor Jay Sanjayan from engineering.

A young woman in her early twenties of European appearance stands in the bright and modern _now store, proudly holding a piece of her graphic art: this is Swinburne grad and creative entrepreneur Dom Gauci.

A Caucasian man in his thirties stands against a filmmaker's green screen. He wears glasses and a film sound recording kit: this is Associate Professor Dan Golding from media and communication.

A Caucasian man in his thirties stands holding a whiteboard marker in Swinburne's Innovation precinct. It is a large, open and light-filled space with tables and whiteboards and projectors and post-it notes. This is Aaron Down, course director of the Bachelor of Applied Innovation.

Text: Put Swinburne to the test. With info nights, taster sessions, webinars and more. Find what works for you. Test Swinburne_now.

A 3D black and red graphic Swinburne University of Technology logo spins around slowly, gleaming. The words 'next gen_now' appear to the right.
