

Health at Swinburne

swinburne.edu.au/international

Our health courses examine the physical, psychological and social aspects of health across the lifespan. Explore human behaviour, discover what motivates actions and behaviours, and learn how to improve the wellbeing of society.

You'll develop specialised skills and be able to put them into practice through clinical or industry placements. Gain access to a range of purpose-built learning spaces, specialist laboratories and testing facilities equipped with the latest technology.

The three-year undergraduate major in psychology is professionally accredited by the Australian Psychology Accreditation Council.

I received offers to study in Germany and Russia but I chose Swinburne – now that I'm here, I really love the culture on campus. I received an academic scholarship and I completed the Swinburne Emerging Leader Program. Thanks to my course, I have now defined my long-term objectives to improve the quality of life for the aging population. I am truly grateful for all the opportunities that Swinburne has given me.

Swinburne campuses

Swinburne has four campuses: three are in Melbourne, Australia – rated as the world's most liveable city* – and one is in Sarawak, Malaysia.

Our main campus is at Hawthorn. It offers:

- a vibrant community in a top inner-urban location
- a supportive, secure and peaceful environment
- modern facilities, including our Advanced Manufacturing and Design Centre.

*The Economist Intelligence Unit's Global Liveability Survey, 2011–17

Career outcomes

Swinburne health graduates find jobs in:

- psychology
- health communication
- counselling
- research
- nursing
- community development
- nutrition
- allied health
- sports science.

Scholarships

At Swinburne, we are committed to rewarding academic excellence.

- Undergraduate students: Receive up to A\$38,000 for a bachelor degree in health. The higher your academic results, the greater the scholarship amount.
- Postgraduate students: Receive up to A\$19,000 for a two-year master by coursework program in health.

Swinburne is the only university in Australia with MRI and MEG labs on campus.
