DESCRIPTIVE TRANSCRIPT

[Introduction title: Studiosity at Swinburne, Writing feedback and study assist.]

[Swinburne student Charlotte looking up after typing on her laptop in the Latelab.]

As a Swinburne student, you get free access to Studiosity, a platform that provides you with instant feedback on your work.

[Charlotte shows what Studiosity looks like on her laptop.]

Upload your essays and other written assignments and it will come back to you annotated with tips on things like structure, referencing, grammar and spelling.

[Screen capture of uploading work on Studiosity and scrolling through the writing feedback on the document. Close up view of Charlotte looking through her writing feedback on Studiosity.]

Studiosity is different from other platforms as it doesn't feed you any content, it only suggests how you can improve the work that you provide.

[Screen capture of opening up study assist on Studiosity.]

There's also AI study assist, which you can use to answer any academic questions like how do you format references?

[Screen capture of asking study assist how to reference in APA 7th.]

It's an official Swinburne support service and accessing it is easy.

Screen capture of opening the Studiosity link from a Canvas unit page.

Follow the Studiosity link on your Canvas unit pages and use your Swinburne login.

[Outro screen with Swinburne logo.]
