ERIN MAYALL: Hi, I'm Erin and I'm a Swinburne student. Construction has kicked off on Swinburne's new 24/7 Latelab and student hub! Let's check it out!

The new facility has been co-created with students to meet our needs and priorities. Thousands of us shared our ideas and preferences, shaping every detail of this space through co-creation workshops, polls, surveys and more.

The new facility has been co-created with students to meet our needs and priorities. Thousands of us shared our ideas and preferences, shaping every detail of this space through co-creation workshops, polls, surveys and more.

Study spaces, collaborative zones, a kitchen, and an outdoor terrace area - we've got it all covered.

And don't worry! The current Latelab remains open until the new one is finished.

Stay tuned for updates here or on our website at the link in our bio.

Bye, see you!
