# Welcome to CU Swinburne

Passports to Learning

& Volunteering

Building your career aspirations and developing your leadership skills

What is CU Swinburne?

CU Swinburne is an innovative program that expands young people's opportunities and builds confidence in learning.

Who can apply?

The CU program is a great option for junior students looking to extend themselves academically and for senior students looking to gain community service and leadership experience, while developing their career planning portfolio.

CU Swinburne for Years 7-8

CU Swinburne supports students to explore their interests via a range of activities that they can do outside of classroom time. All activities are linked to careers and their pathways to expand our members future opportunities!

Members receive a *Passport to Learning* to log their hours of learning. Upon reaching program milestones, members are invited to the annual CU graduation at Swinburne University Hawthorn, donning caps and gowns as their achievements are celebrated.

CU Swinburne for Years 9-12

For senior students, CU Swinburne becomes a program to develop leadership, career management and community service.

Members are given a *Passport to Volunteering* to log their hours for:

- Volunteering - in the community and within their school environment
- Building their leadership and communication skills through engaging in a range of career exploration workshops offered by Swinburne University.

Passport to Volunteering members are invited to attend our Swinburne campuses for:

- Workshops
- Mentoring sessions
- Tours
- Immersion days
- Graduations

All adding towards their hours for graduation.

CU Swinburne aims to:

- Build leadership and interpersonal skills
- Develop career pathways
- Improve study skills
- Celebrate and recognise each member's achievements.
