

Masterclass Transformational Leadership

Masterclass Transformational Leadership

🕒 2 day 📍 Face-to-face, Live online, Workplace 💰 \$ 1950

Exploring the world through the leadership lens is critical.

A lot of successful leaders are intuitive and as a result they often expect others to be the same. A result of this is that a lot of great leaders aren't good at passing the keys to leadership along.

This two-day Masterclass teaches the theory, methods, models, and processes of being a leader capable of taking an organisation through change. A key feature of this masterclass is exploring the dynamics of leadership; what is it and how it is done well. Leading through change is not about tasks, task functions, or teams.

This Masterclass has two core elements; personal and organisational transformation. We dig into the interior dynamics of leaders and find out what their motivators are and why that is. This is about what makes individuals tick. This knowledge can then be rolled out at the organisational level for successful change.

It's a radically different leader who is motivated by ego and achievement, versus a leader who comes in and is focused on succeeding together.
