News and events

A Day in the Life of a Swinburne Student

We're helping secondary school students in Years 10 to 12 get a sneak peak of what comes after high school, spending a day at our Hawthorn campus during the school holiday immersion program. There will be plenty to learn, see and experience, including:

- a guided tour of the Hawthorn campus
- a lecture from one of our star academics
- hands-on workshops
- a $15 lunch voucher to be used at a variety of cafes on campus
- a goodie bag full of freebies!

Students can join a day in the life experience in these study areas:

- STEM – 19 September
- Creative – 20 September
- Health – 21 September

- Business – 21 September

These are free events with limited spots available, so encourage interested students to register as soon as possible so they don't miss out.

Applying for Deloitte Cyber Academy

With our partnership with Deloitte, students can earn as they learn while studying a Diploma of Information Technology (Advanced Networking and Cyber Security) and a Bachelor of Cyber Security. During their Deloitte placement, they will learn the latest skills to succeed as a cyber security professional. They will graduate in three years with a diploma and a degree, ready to fight hackers and protect virtual networks.

As this is a unique student experience, it has a special enrolment timeframe and students are required to **apply directly** through the Swinburne website. Applicants will be invited to do a skills assessment followed by a recorded interview. Successful applicants will be placed at Deloitte, or at an industry or government sector partner.

Applications for the Deloitte Cyber Academy close on **Friday 29 September 2023**.

While the Cyber Academy program is **not** available through VTAC, students can still apply for our suite of other **Cyber Security courses** via VTAC.

Swinburne Innovation Challenge

Are your students innovators? The **Swinburne Innovation Challenge** runs over four weeks using a blended model of delivery. Small teams of high ability Year 10 to 12 students will be supported through a scaffolded process to choose a challenge, ideate a solution and deliver a video pitch.

During the program – which is free and open to Government schools – students will spend half a day on campus where they will have the opportunity to access our labs and teaching spaces, an innovation kickstarter session and a specialist workshop.
