# Student Loan Pack: What Do I Need to Know?

### **Finance**

#### #1: What Is the Student Loan Pack?

The Student Loan Pack is an envelope (or .pdf download) with all of the information and forms you need to prepare you for applying for a student loan. The aim is to make you as ready as possible for your first loan appointment with a financial advisor, so that the whole student loan process is as quick and easy as possible!

#### #2: About the Student Loans

Student loans are available to full time students of Swinburne University and are for expenses related to your study such as books, stationery, or maybe bigger things like a computer or printer.

In some cases, where there are exceptional circumstances, loans can also be for things like rent or a bill that has arrived unexpectedly.

Loans are not given for any sort of recreational expense, to cover credit card debt, fines or for any 'luxuries'. It is also important to remember that loans are for one off expenses, and are not intended to be a regular supplement for your income.

These loans are completely interest free as long as they are paid back within the agreed upon time.

## #3: How Do I Qualify?

To qualify for a student loan you need to demonstrate three things:

- You are an enrolled, full time, student of Swinburne University and have paid your fees in full (students on an installment plan for their fees are not eligible for loans until their plans are completed).
- The loan is for a study related expense for which you have obtained a quote, or quotes.
- That you will be able to pay the loan back within the agreed time.

### #4 How Much Can I Loan? And How Long Will I Have to Pay IT Back?

How much you can loan will depend on what you need to purchase. Loans are always for a specific purchase or need and not just for a cash amount.

# Student Loan Pack: What Do I Need to Know? continued...

### **Finance**

The amount you can borrow will also depend on what kind of study you are undertaking. The three kinds of loans are:

- Special Assistance Loans Available to higher education students for amounts up to \$1500.00. These loans are to be repaid over a maximum period of 12 months.
- Student Aid Loans For TAFE students. The maximum loan amount is \$500.00, with repayments over a maximum of 6 months.
- Overseas Student Loans Are for overseas students and are set at a maximum of \$500.00. As these loans are intended to be for a short term repayment is usually set for as soon as possible, but can be for as long as six months. All overseas loans must be approved by an advisor from the International Student Unit.

### #5 Do I Need a Guarantor?

Any student that is under the age of 18, in the first year of study or applying for a loan over \$500.00 will need a guarantor.

A guarantor can be any person that is willing to pay off your debt if you do not finish paying off your loan. By signing the guarantor form your guarantor is sharing in the legal responsibility for your debt.

### #6 What Happens If I Don't Pay My Loan Back?

Entering into a loan is a serious, and legally binding, commitment. If your loan is not paid back within the agreed upon period of time you will have a debt to the University. This will mean:

- That the University may begin charging you interest on the outstanding amount of your loan, meaning the amount you owe will increase
- You will not be able to access the library services and your computer account will be suspended until your debt is cleared.
- Your results will be withheld until you pay off your debt.
- You will not be able to enrol in any further courses of study until your debt is cleared.

## **Budgeting**

### **Finance**

Managing your money can be difficult, especially if you've just moved out of home or if this is the first time you're paying your own bills and living off your own income. A budget is a good way to look at your income and expenses and figure out a way of making your money last. If you don't watch what you're spending you'll be surprised at how quickly your money can disappear!

When budgeting there are some things that can make the whole process a bit smoother:

- Figure out whether you'll be budgeting weekly, fortnightly or monthly. It's a good idea to work your budget out for a short period of time, even if you get paid fairly infrequently.
- Decide how much money you'll have to spend per week then pick a day to go to the bank and take it out. It's easier to stick to your budget if you can see how much you've spent, and how much you have left.
- Be careful when using EFTPOS and other forms of electronic transactions. It's easy to go over budget when you can't see what you're spending, or when you're making a lot of little purchases.
- Only withdraw money from your own banks ATM. Withdrawing money from other banks ATMs usually means that you'll be charged extra.
- Transfer your rent money into a different account, or arrange to pay it more frequently. If you separate rent money from money you spend, then there's no chance of accidentally spending it!
- Get together with housemates or friends and buy food, fruit and vegetables in large quantities.
- You'll be surprised at how much you can save.
- Don't forget to put aside money in your budget for irregular expenses, or bills that only come once a year, like car registrations. If you put a little bit aside each week, or fortnight, you won't be caught out when the bigger bills arrive.
- •Last but not least, leave yourself some room in your budget to have fun! You're more likely to stick to your budget if you can still enjoy yourself a little bit. This might mean something as simple as putting \$10.00 aside to have a takeaway meal once a week.
