OUA Teach Out and Transition Information 2011 – 2018

**Important Information about Changes to Your Course**

The Bachelor of Behavioural Studies (Psychology) changed to the Bachelor of Psychological Sciences from Study Period 1, 2017. Changes were made to the design and delivery of units of study to ensure that we maintain the quality and relevance of our courses in line with the changing demands of industry and global trends. These changes came into effect from the start of 2017.

**HOW DO THE CHANGES AFFECT ME?**

If you are a current student admitted into the Bachelor of Behavioural Studies (Psychology) you need to review this Teach out and Transition plan carefully to ensure you complete the units scheduled for teach out in a timely manner. Students who wish to undertake the Bachelor of Psychological Studies must apply for the new course. Please contact OUA for further information.

NOTE: If you have not complete STA20007 in 2017, you are required to move to the new Course (Bachelor of Psychological Studies) due to APAC requirements as there is no replacement unit.

**FREQUENTLY ASKED QUESTIONS**

**Can I change to the new course?**

Current students enrolled in the existing Bachelor of Behavioural Studies (Psychology) may have the opportunity to transfer to the new course. This will normally depend on the number of units completed and how they transfer to the new course. Table 2 below illustrates how each unit translates between the different course options.

**Can I continue in my existing course?**

Students currently admitted into the Bachelor of Behavioural Studies (Psychology) can continue their current course of study. There will, however, not be any new admissions in to the Course. While the course rules remain the same it's important to note some replacement units may apply. Again refer to Table 2 to see how each unit translates between the different course options. When planning your re-enrolment, please also note the final time some units will be offered.

**Please note:** Each row relates to the same, or the equivalent/replacement, unit. You can easily see how a unit (or its equivalent/replacement) sits within each course option.
