Aviation at Swinburne

swinburne.edu.au/international

Our aviation courses provide you with essential study in this multifaceted field. Choose from studies in aerodynamics, navigation, meteorology, aircraft mechanics, air law, airline and airport operations, safety and aviation business strategy.

At Swinburne, we allow you to learn in the actual or simulated environment you'll be working in, for many of our courses. It's our way of providing you with invaluable, hands-on exposure for the career you want – whether it's in the air or on the ground.

I've wanted to be a pilot since I was 5 years old! I was looking for high-quality living, education and flight training. Swinburne was a good option because of their partnership with CAE Oxford, the world's largest flight training network.

Nicolas from Peru
Studying Bachelor of Aviation and Piloting

World-ranked university

45 IN THE WORLD
under 50 years old
QS Top 50 Under 50, 2019

Swinburne aviation students learn to fly with the largest flight training network in the world, CAE Oxford Aviation Academy.

- You'll be in the air in your first week of university!
- Located at Moorabbin Airport, near Melbourne International Airport.
- The busy flying environment is great preparation for a career as a commercial pilot.

Swinburne campuses

Swinburne has four campuses: three are in Melbourne, Australia – rated as the world’s most liveable city* – and one is in Sarawak, Malaysia.

Our main campus is at Hawthorn. It offers:

- a vibrant community in a top inner-urban location
- a supportive, secure and peaceful environment
- modern facilities, including our Advanced Manufacturing and Design Centre.
