

Certificate III in Design Fundamentals

Course code: CUV30311

This program will provide participants with foundation skills in design, media and art. Drawing, colour theory, digital image creation and editing as well foundational design skills are the cores of the course. The software used is the latest Adobe Creative Cloud applications including Photoshop and Illustrator.

Course outcomes

On successful completion of this course, students will achieve:

- Certificate III in Design Fundamentals
- a good foundation in Adobe Creative Cloud software including Photoshop and Illustrator
- visual design skills
- possible entry into a range of full-time creative courses at Swinburne.

Career opportunities

The program enables students to understand the elements of design and how they can be applied to a wide variety of industry sectors. It prepares them for entry into more advanced programs, such as graphic art, design and interactive digital media with possible employment as a graphic designer, pre-press operator or desktop publisher.
